### SKILL SET

- ✓ Rolling Stock Design
- ✓ Mainline Troubleshooting
- ✓ Root Cause Analysis
- ✓ PTC Modelling, Magic Draw, Spectrail Tools
- ✓ RAMS EN-50126 Calculation
- ✓ Asset Management System (Maximo Tool)
- ✓ Quality Management
- ✓ Planning & Execution
- ✓ E3 schematics, Electrical design
- ✓ Testing, Commissioning and Witness
- ✓ Technical training & Demonstration
- ✓ 5S implementation

*A dedicated and enthusiastic professional with experience in **Rolling stock**, seeking career in a reputable Rolling Stock concern wherein I can contribute through my skills and experience to achieve the organization goals and at the same time see a growing career for myself.*

### PROFILE SUMMARY

- About 8+ years of experience in overseeing **Rolling stock Design & maintenance** as a Design & service electrical engineer in detailed maintenance, erection Testing & commissioning of which 5+ years of exp in Rollingstock. exclusively in Design & Maintenance.
- Hardworking and diligent in developing and enforcing adherence to maintenance schedules. Committed to reducing risks and promoting workplace safety through improved safety training.
- Sincere, diligent & qualified professional in maintenance, Commissioning and Quality Inspection Management of Rolling Stock.
- Played a key role in three successful joint **CMRS inspections**.
- Skilled professional with efficient in RAMS EN-50126 Calculations of Rolling Stock
- Hands on Experience in trouble shooting, preventive / corrective maintenance, manpower / inventory control.
- Responsible professional for Preparation of FRACAS, A3 analysis & Root Cause Analysis (RCA), Product Reliability, Availability and Maintainability (RAM) & Monitoring.
- Skilled Competent trainer for Rolling Stock Technical Training.
- Diligent professional with high level of safety awareness.

### ORGANISATIONAL EXPERIENCE

**ALSTOM Transportation Pvt Ltd-**

**Train Control Engineer/Functional Architect (Rolling-stock)**

**Sep'2022 – Present**

**Key Result Areas:**

Technical Skills-

- Design & Integration of systems in one complete Circuit/Block diagram as per Base Standards, norms and customer derived requirements.
- Drive design reviews and First Article Inspections (FAIs).
- To be the Engineering function(s) direct interface to the Project Engineer and the other project members with regards to the vehicle function and electrical Control command requirements.
- Participate in vehicle functional design reviews.
- To be present in the sub-system design reviews with supplier and customer
- Analyze and optimize the technical choices in terms of cost, reliability and safety
- Support testing team to test the functionality of the Control/Command on train level through specific software
- Review/Validate functional train test and validation documents

**QuEST-Global Engineering service Pvt Ltd-**

**Senior Design Engineer (Rolling-stock Electrical schematics)**

**Aug'2021 – Aug 2022**

**Client- SIEMENS Mobility**

**Key Result Areas:**

Technical Skills-

- To design & develop Electrical schematics/circuits in **Zuken E3 software**

- Good knowledge on Failure investigation and Root cause analysis
- Integration of systems in one complete circuit diagram as per actual norms, standards and requirements
- Drive design reviews and First Article Inspections (FAIs)
- To analyze functional requirements and sub-system supplier inputs which are necessary for generating circuit design

**Keolis Hyderabad MRTS- (L&T Metro Rail), Hyderabad**  
**Rolling Stock maintenance**

**Aug'2018 - July 2021**

**Key Result Areas:**

**Technical Skills-**

- **Failure investigation and Root Cause Analysis (RCA)**
  - Good knowledge on Failure investigation and Root cause analysis.
  - Expert in **TIMS data analysis**, other maintenance terminals usage (ex: BECU, VAC, Doors etc.)
  - Responsible for failure investigation for the major failures, failures which leads to delay in revenue service and train withdrawn cases.
  - Preparation of Failure investigation and RCA reports, A3 analysis.
  - Active participation of **FRACAS, FMCA** information capture process and updating the Technical issues during testing to the Project Management and follow-up the open issues
  - Knowledge on **E3 schematics** Electrical software substation design and implementation with **ANSI/IEEE, IS** standard device numbers, cable & transformer sizing calculations by using (**ETAP**) electrical transient analysis program for calculations
- **RAMS Calculations**
  - Recording the day-to-day failures and Preventive maintenance activities for calculation of RAMS parameters.
  - Responsible for **RAMS Calculation** - Calculation of Train Availability (Down time calculation), Overall Reliability (MDBF) & subsystem wise reliability (MDBCF) and Maintainability (MTTR) as per targets mentioned in technical specification
  - Preparation RAMs template, monthly reports and participating the monthly review meetings.
- **Asset Management System Tool (IBM MAXIMO)**
  - Managing the assets with Asset Management System (IBM Maximo) software tool.
  - Closing & Recording of all the job card's, service request activities in **AMS tool** for easy tracking.
  - Hands on experience & Familiarity with all kind of work flow in Maximo tool.
- **Testing and commissioning of Rolling Stock.**
  - Witnessing the testing and commissioning of different sub-system of Rolling Stock (both static and dynamic).
  - Performing train handover tests (both static and dynamic) and taking over of Rolling Stock.
  - Coordinating with vendor and witnessed other Type tests like Coupling/uncoupling, rescue operation and Testing and Commissioning test for RDSO.
- **Preventive Maintenance of Rolling Stock**
  - Responsible for maintenance of Rolling stock and validate the fitness of Rolling stock for mainline revenue service operation.
  - Established and documented protocols for preventive maintenance procedures, decreasing equipment issues and reducing downtime.
  - Co-ordination with planning and other departments for timely completion of PM activities
  - Guiding the sub-ordinates' for efficient output and ensuring the safety of the working personnel.
  - Recording all the preventive maintenance activities related to all trains for easy tracking.
  - Performed **overhauling of Vacuum Circuit Breaker (VCB), Traction Motors.**

- Competent professional for checking the performance of Brake system equipment by **Brake System Test Bench.**
- **Corrective Maintenance and Mainline Troubleshooting of Rolling Stock.**
  - Responsible for corrective maintenance of trains for the mainline failures reported by the Traffic Controller/ Chief Controller.
  - Co-ordination with Traffic controller and the train operators in TETRA for live troubleshooting in mainline for rolling stock failures.
  - Responsible for timely effective decision making in case of any failures related to rolling stock in mainline to reduce the delay for revenue service.
  - Responsible for HECF and modification of Rolling Stock.

#### Managerial skills-

- Competent in TTT (Train The Trainer) for giving the technical & practical training to new joiners.
- Implementation of 5S and day to day tracking.
- KPI management for the department and the staff.
- Attending regular meetings within Rolling Stock department and also with cross- functional teams on technical issue.
- Man, hour calculation, Training & Evaluation of Sub-ordinates to carry out jobs, troubleshooting & deliver quality output.
- Preparing SOPs (Standard Operating Procedures) and Check Sheets for Depot Equipment and Rolling Stock.
- Reviewing of vendor drawings, documents (both technical and Operation and maintenance manual).
- Implemented improved training programs for maintenance employees.
- Delegated tasks to carefully selected employees in alignment with resource management goals.

### PREVIOUS EXPERIENCES

#### **HEBNEZAR A1 ELECTRICAL CONTRACTOR** **Electrical Engineer**

**Jan 2014 – Dec 2017**

#### **Key Result Areas:**

- Preparation of Key Single Line Diagram, Arrangement Layouts, Cable Routing Layouts, Lighting Layouts.
- To perform analysis and identify specific cables, connectors, fuses, circuit breakers and other electrical devices used for installation as per IN standards
- Transformer (Power & Distribution) Sizing, Cable Selection & voltage drop calculations, cable sizing calculations.
- Consultant Follow up for document approval.
- Use type formulas to calculate current loads, short circuit currents and sag level calculations
- Vendor Follow-up for Inspection and delivery of materials.
- Preparation and approval follow-ups of PR and budgeting Bills.

### TRAININGS / CERTIFICATES / WORKSHOPS

- A certificate and a merit letter from Cisco® Chief. Executive Officer Chuck robins under Cisco networking academy for **Ccna module 1**
- A merit certificate received from SPARK INFORMATION TECHNOLOGY (IT)
- A short course certification from BRENTWOOD open e-Learning college UK (During covid19 lockdown)
  - 1. Project managements**
  - 2. Human resources management**
  - 3. Supply chain management**
- Certificate of appreciation from keolis Hyderabad (Khmrts) for effective work contribution.

- ORGANIZER cum Technical Coordinator for SPRING-16, a National Level Student Technical Symposium conducted at JNTUH College of Engineering.
- Active participant and organizer of various college programs and seminars.

#### ACADEMIC DETAILS

| YEAR | QUALIFICATION                                | INSTITUTE                                                       | AREA OF SPECIALIZATION               |
|------|----------------------------------------------|-----------------------------------------------------------------|--------------------------------------|
| 2016 | Bachelor of Technology with 85.84% aggregate | Jawaharlal Nehru Technological University (JNTUH), SVS Warangal | Electrical & Electronics Engineering |
| 2013 | Diploma in EEE with 89.17%                   | VMR Polytechnic College, Warangal                               | Electrical & Electronics Engineering |
| 2010 | X with 90.16%                                | Auxilium E/M Convent school Warangal                            | General Studies                      |

#### IT SKILLS

- ✓ MS Office
- ✓ CCNA (Networking)
- ✓ C, language
- ✓ Auto-cad
- ✓ E3 Schematics, ETAP

#### PERSONAL DETAILS

##### Personal Traits:

- ✓ Highly motivated & eager to learn new things.
- ✓ Strong motivational leadership skills.
- ✓ Efficient Team Management skills.
- ✓ Excellent communicational skills in written and verbal both.
- ✓ Ability to work as individual as well as in group.

##### Other Details:

- Gender : Male
- Marital Status : Unmarried
- Citizenship : Indian
- Date of birth : Jan 19, 1995
- Passport Number : T9937535
- Languages Proficiency : Telugu, English, Hindi
- Father's name : Mr. Sarangapani
- Hobbies : Reading books, Listening Music, Watching discovery
- Permanent Address : H. No. 53-1-352, Vinayaka colony,  
Hasanparthy, Warangal  
Telangana-506371

#### DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge.
