ABOUT ME

Detail-oriented and motivated engineering graduate with experience in testing avionics packages at Vikram Sarabhai Space Centre (VSSC). Experienced in quality-driven testing and evaluation activities, with a strong focus on adherence to established standards and procedures.

EDUCATION

B.E ECE-2023:

Satyam College of Engineering and Technology: CGPA - 7.75 .

HSC-2019:

G.S Hindu Hr Sec School, Srivilliputhur: Percentage - 67 %

SSLC-2017:

G.S Hindu Hr Sec School, Srivilliputhur: Percentage - 90 %

WORK EXPERIENCE

Vikram Sarabhai Space Centre. | 2025 - 2026

Graduate Trainee

Test and Evaluation Engineer in the Quality Division at Vikram Sarabhai Space Centre. Manage testing and evaluation of avionics packages ensuring adherence to aerospace quality standards. Assisted in verification, and validation processes during testing phases. Coordinated with engineering and testing teams for compliance and corrective actions. Gained exposure to quality assurance practices in a precision-driven aerospace environment. Followed safety, reliability, and quality protocols applicable to critical systems.

SKILLS

- SQL, Manual testing ,C#
 - Proficiency with MS Office including PowerPoint, Excel, and Word
-

PROJECTS

Title: Application To Detect Obstacles For Helping Visually Impaired

Developed an ultrasonic sensor-based obstacle detection system to assist visually impaired individuals. The device provides alerts for obstacles detected in close proximity using a sensor mounted on a walking stick.

Title : 1553 Bus monitor Application

Developed a C#-based MIL-STD-1553 bus monitoring application with multi-channel packet decoding, real-time UI updates, and per-channel file logging over TCP/IP Ethernet.
