WORK EXPERIENCE

UX Designer | Iopex Technologies

Client: Palo Alto Networks · Dec 2023 – Feb 2026 · Chennai

- Owned end-to-end UX for enterprise cybersecurity dashboards from research and IA to high-fidelity prototypes and handoff serving global security operations teams
- Built and scaled a unified design system across product modules, reducing redundant design work and ensuring cross-module visual consistency
- Cut design-to-development turnaround by standardizing component documentation, annotation conventions, and Figma handoff workflows
- Ran usability testing and heuristic evaluations on complex threat-management workflows, identifying drop-off points and iterating to improve task completion rates
- Integrated Figma AI, ChatGPT, and Midjourney into daily workflow, compressing ideation and UX writing cycles. Used Hotjar heatmaps and Google Analytics funnels to validate design decisions and measure feature adoption post-launch
- Embedded within Agile squads alongside PMs and engineers contributed to sprint planning, story grooming, and design QA
- Received **Best Performance Award (Aug 2024)** for consistent delivery under tight sprint timelines

UX/ UI Designer | Infocus Technologies

Client: PWC · Sept 2022 – Mar 2023 · Bangalore

- Designed **data-dense enterprise dashboards** for PwC's internal consulting tools translating ambiguous stakeholder briefs into structured user flows, wireframes, and polished UI
- Introduced **micro-interactions and progressive disclosure** patterns that improved perceived performance and reduced cognitive load for power users
- Structured **design documentation** and **reusable component** specs that reduced developer back and forth by streamlining review and sign-off cycles
- Actively participated in **Agile ceremonies**, flagging design risks early and unblocking engineering during implementation

Associate UI/UX Designer | CX100

Client: Amazon · Sept 2021 – July 2022 · Bangalore

- Contributed to UX for **Amazon Kisan App** — designed simplified onboarding and task flows for low-literacy, non-technical rural users, improving accessibility and feature discoverability
- Supported content discovery and navigation redesign for **Amazon MiniTV**, informed by user behavior patterns and content hierarchy analysis
- Conducted in-field user interviews and usability studies; synthesized findings into journey maps and actionable design recommendations
- Collaborated with frontend developers to test implementation feasibility and ensure design intent was preserved in production

Hello!

Product Designer with 4 years of experience delivering scalable, user-centered design solutions across cybersecurity, enterprise SaaS, e-commerce, and media platforms. Proven expertise in end-to-end UX design, transforming complex workflows into intuitive experiences that improve usability, efficiency, and engagement. Strong track record of owning UI/UX design projects independently, aligning design strategy with business goals, and collaborating in agile environments.

EDUCATION

Bachelor's in Design | 2017 - 2021
(Communication Design)
MSU, Vadodara

AWARDS

Best Performance Award
Iopex Technologies (Aug 2024)

Spot Recognition – “Made a Difference” Award

Recognized for **delivering high-quality UX solutions under tight deadlines**

SKILLS

Design :
UX Strategy · Interaction Design · Information Architecture · Design Systems · Visual Design · Prototyping · Wireframing · User Journey Mapping

Research :
User Research · Usability Testing · Heuristic Evaluation · A/B Testing · Field Studies · Stakeholder Interviews

Product & Agile :
Agile/Scrum · Sprint Planning · Stakeholder Management · PRD Contribution · Cross-functional Collaboration · Roadmap Alignment

AI & Analytics :
AI-Assisted Design · UX Writing · Behavioral Analytics · Data-Driven UX · Hotjar · Google Analytics

Frontend :
HTML · CSS · Responsive Design · Design-to-Dev Handoff · Frontend Feasibility Review

Tools :
Figma · Figma AI · Adobe XD · Midjourney · ChatGPT · Hotjar · Google Analytics · Jira · Confluence · Zeplin · Maze
