

ASHU CHAUBEY

UAV Production Planning & Control Engineer | Production Scheduling | MRP | Inventory Management

Noida / Varanasi, India | +91 7011608828 | +91 9667949247
ashuchaubey191444@gmail.com

PROFESSIONAL SUMMARY

Results-driven **UAV Production Planning & Control (PPC) Engineer** with **8+ years of experience** in UAV manufacturing, production planning, avionics integration, and defense electronics. Expert in **Material Requirement Planning (MRP)**, BOM management, and shop floor execution for fixed-wing and multirotor UAV platforms. Proven track record in supporting **DGCA Type Certification**, improving **On-Time Delivery (OTD)**, and enhancing manufacturing efficiency through process optimization and cross-functional leadership.

CORE SKILLS

- **Planning & Control:** Production Planning & Control (PPC), Master Production Schedule (MPS), MRP, Capacity Planning.
- **Manufacturing & Logistics:** Shop Floor Management, Inventory Control, Procurement Coordination, BOM & Work Order Management.
- **UAV Technical Expertise:** Drone Assembly, Avionics Integration, Wiring Harness Fabrication, SMT Production.
- **Compliance & Quality:** DGCA Type Certification Support, QA/QC, EMI/EMC Testing, Root Cause Analysis (RCA).
- **Operational Excellence:** Lean Manufacturing, Process Improvement, Vendor Management, OTD Enhancement.

PROFESSIONAL EXPERIENCE

Optiemus Unmanned Systems Pvt. Ltd.

May 2023 – Present

UAV Production Planning & Control Engineer / Team Lead

- Lead **end-to-end Production Planning & Control (PPC)** for UAV manufacturing operations, developing daily and monthly schedules to meet delivery targets.
- Manage **Master Production Schedule (MPS)**, capacity planning, and resource optimization to maximize throughput.
- Execute **Material Requirement Planning (MRP)** and inventory planning to ensure zero production delays.
- Oversee **BOM management** and work orders, reducing material shortages and line stoppages through proactive vendor coordination.
- Improved **On-Time Delivery (OTD)** by 15% through optimized scheduling and bottleneck identification.
- Coordinate UAV assembly and avionics integration for fixed-wing and multirotor platforms in compliance with **DGCA Type Certification**.

Raphe mPhibr Pvt. Ltd.

July 2020 – May 2023

Integration Engineer

- Performed **UAV avionics integration** for fixed-wing and multirotor platforms, configuring flight controllers, GPS, and telemetry systems.

- Managed **wiring harness fabrication** and PCB assembly according to strict aerospace engineering drawings.
- Conducted functional testing, troubleshooting, and **pre-flight validation** to ensure 100% operational reliability.
- Collaborated with R&D teams for prototype development and system assembly, improving first-pass yield.
- Maintained detailed documentation including test reports, SOPs, and quality records for traceability.

Innovative Infratech Solution Pvt. Ltd.

Aug 2019 – Jun 2020

Repair Technician

- Managed SMT production operations and machine setup (AOI, Reflow ovens, Pick-and-place).
- Optimized machine settings to reduce rejection rates and minimize downtime.

Lava International Pvt. Ltd.

Sep 2016 – Jun 2019

Senior Associate Trainee

- Operated and maintained SMT production equipment.
- Performed feeder maintenance and stencil management to improve PCB assembly quality.

EDUCATION

Bachelor of Engineering (Electrical Engineering) | Singhania University | 81%

ITI (Electrical) | 81%

Class 12: 79% | Class 10: 75%

TECHNICAL SKILLS & CERTIFICATIONS

- **Software/Standards:** MS Excel (Advanced), AS9100, ISO 9001, MIL-STD/JSS Standards.
- **Technical:** Flight Controller Integration, GCS Calibration, SMT & PCB Assembly.
- **Certification:** **IPC-A-610H Certified (2022)** – Acceptability of Electronic Assemblies.
