

BRIEF SUMMARY

Electrical Design Executive Trainee with hands-on experience in the design and documentation of railway maintenance machines, including USP and Ballast Profiling models. Proficient in preparing BOMs, verifying electrical circuits, and generating cable lists and SAP. Skilled in collaborating with cross-functional teams to resolve design issues and ensure alignment with production requirements

KEY EXPERTISE

Python MS Office Machine Learning Introduction to Wireless Communication Introduction to Power Electronics
Grid connected Inverter R-studio Simulink electrical design SAP

EDUCATION

Gati Shakti Vishwavidyalaya

2020 - 2024

B.Tech. - Electronics & Communication Engineering | CGPA: 8.40 / 10

Islamiah Higher Secondary School, Vellore

2020

12th | TNBHSE | Percentage: 72.50 / 100

Islamiah Higher Secondary School, Vellore

2018

10th | TNBSE | Percentage: 90.60 / 100

PROFESSIONAL EXPERIENCE

Plasser India Pvt. Ltd | Machinery / Equipment Manufacturing | Electrical Design

16 Jul, 2024 - Present

Executive Trainee

Key Skills:

SAP EXCEL solid edge Electrical Circuit Design & Verification BOM (Bill of Materials) Preparation
Cable List Generation Panel Layout Understanding Fault Diagnosis & Design Issue Resolution

Involved in electrical design for Ballast Profiling and USP machines.

Prepared detailed BOMs, verified circuit diagrams, and created cable lists.

Used solid edge and SAP for design documentation and revisions.

Coordinated with production and cross-functional teams for implementation and troubleshooting

INTERNSHIPS

Alstom | Others

22 May, 2023 - 04 Aug, 2023

Internship Trainee

Key Skills: Introduction to Doors tool Railway signalling Requirements Management

TRAIN CONTROL & IS, Trainee

Requirements Management

- Engaged in hands-on requirements management and development within the Athens Metro project's V-model framework, utilizing IBM DOORS for efficient requirement capture, analysis, and tracking.

- Generated weekly key performance indices (KPIs) to monitor project progress and ensure alignment within the V-model framework.

Indian Railways | Others

01 Jul, 2022 - 16 Aug, 2022

Intern

Key Skills: crimping Testing

Validation of CDAC VCU I/O Testing setup in Locomotives

- The Vehicle Control Unit (VCU) serves as the primary control module, overseeing supervisory control and interfacing with locomotive pilot interfaces.

- Burn-in test programs monitor digital I/O card health, providing predetermined values every 30 seconds to determine its operational status

Key Skills: Procurement

IT Integration of supply chain across various zones of Indian Railways

- Examined procurement systems like GeM, IREPS, and FOIS, focusing on their vital roles in managing Indian Railways' procurement processes.
- Analyzed the efficiency of E-procurement platforms in streamlining order placement and purchase procedures, with a particular emphasis on the Freight Operations Integration System (FOIS) for optimizing commercial goods delivery within Indian Railways.

PROJECTS

Single phase grid connected inverter using simulink02 Jan, 2024 - 16 Apr, 2024

Mentor: Dr. Prasiddh Trivedi, Assistant Professor - Electrical Engineering | Team Size: 3

Key Skills: Maximum power point transferPhase locked loopsingle phase solar PV inverter

The Single Phase Grid-Connected Inverter Simulink model is a comprehensive simulation tool for analyzing the performance of single-phase inverters in grid-connected PV systems. It facilitates the study of inverter operation, control algorithms, and their impact on grid integration, providing insights into efficiency, stability, and power quality.

Predicting global sales using video games data05 Jun, 2023 - 15 Jul, 2023

Key Skills: machine learning

Project Link: <https://github.com/Barath1507/Artificial-Intelligence/tree/main/video%20games2>

This project aims to predict global sales of video games based on various factors such as platform, genre, critic reviews, user ratings, etc.

Invistico Airline customer Satisfaction05 Jun, 2023 - 15 Jul, 2023

Key Skills: Machine Learning

Project Link: <https://github.com/Barath1507/Artificial-Intelligence/tree/main/New%20folder>

Analyzing and assessing customer satisfaction involves understanding their needs and preferences, aiming for improved loyalty and business growth.

ASSESSMENTS / CERTIFICATIONS

Junior Grade Typewriting English

Artificial Intelligence

Introduction To DOORS 9 REQUIREMENTS SOFTWARE

Data Science for Engineers

Key Skills: Data scienceR programming

SEMINARS / TRAININGS / WORKSHOPS

Online Live Summer Training Program 2023 on Artificial Intelligence05 Jun, 2023 - 15 Jul, 2023

Institute Name: E & ICT Academy, IIT Kanpur

Key Skills: Artificial Intelligence

The internship and project titled "Airline Satisfaction Prediction" (Classification) and "Video Games Sales Prediction" (Regression) have been developed within the realm of Artificial Intelligence.

PERSONAL INTERESTS / HOBBIES

- Travelling, Cooking & Watching Movies

IMs

PERSONAL DETAILS

Gender: Male

Marital Status: Single

Current Address: Gati Shakti Vishwavidyalaya, NAIR Campus,
Vadodara, Gujarat, India - 390004

Email: barath.p_btech_2024@gsv.ac.in

Date of Birth: 15 Jul, 2002

Known Languages: Tamil (Native), English (Fluent),
Hindi(Basics)

Permanent Address: No.895 Gunni Chetti Street, Amburpet,
Vaniyambadi, Vaniyambadi, Tamil Nadu, India - 635751

Phone Number: +91-6383291490
