

Bhavani Sankar Appalla

SEASONED ELECTRONICS ENGINEER WITH 14+ YEARS OF EXPERTISE IN ELECTRONICS

9739893515 bhavanishankar.1089@gmail.com

Hyderabad

Work Experience

April 2025 – Sep 2025

TIFR Hyderabad, Hyderabad
Project Engineer

waveform generation with SCPI commands on QDAC2 Compact from quantum technologies in Python Environment

August 2023 – January 2025

Cyient
Senior Engineer

- Led Post Silicon Validation of Power Integrated Circuits
- Executed Schematic Design utilizing Altium software
- Conducted detailed PCB Layout Reviews
- Performed measurement analysis with NI PXI cards
- Automated testing processes using Python

February 2023 – July 2023

GEECI
Engineer

- Conducted DC Wafer Probing of GaN Transistors
- Analyzed ID vs VDS curves using Keithley SMU
- Implemented Test Automation with Python
- Generated curve plots utilizing Python

June 2021 – January 2023

Anritsu
Senior Engineer

Summary

Dedicated Electronics Engineer looking for an opportunity to contribute and grow in an environment that fosters professional development while utilizing my extensive skills in electronic validation and automation.

Skills

Technical Skills

Spectrum Analyzer , Vector Network Analyzer, De-embedding , SOLT Calibration ,EMI EMC tests , Analog and Digital Circuits, Python Programming, Test Automation, Design, Test and Validation of Hardware Prototypes

- Delivered comprehensive Pre and Post Sales support for diverse test and measurement instruments, including 2G, 3G, 4G, 5G, Bluetooth, and WiFi technologies

February 2021 – May 2021

Simyog

Consultant

- Performed Schematic Design of DC-DC Converters IC to validate chip functionalities
- Automated testing processes using SCPI commands in Python

July 2017 – May 2020

Tessolve Semiconductors

Senior Engineer

- Managed PCB Board Bring-up processes
- Conducted EMI and EMC Testing using Spectrum Analyzer
- Successfully resolved EMI EMC interference issues affecting GPS receiver performance (adjusted the blocking interferer to a different frequency by changing the fundamental frequency of the blocking signal)
- FCC 15.247 certification for electronics modules
- 36.521 and 38.521 specs for 4g and 5g mobile technologies
- worked with various RF Faraday cages (EMI chamber)
- knowledge about various RF connectors , cables , ability to measure S parameters with Vector Network Analyzer
- ability to perform Noise Figure with Spectrum Analyzer and Noise Source

May 2015 – May 2017

IISc ARSL Lab

Test Engineer

- Executed RFIC Wafer Probing with precision
- Performed accurate measurements of S-parameters

November 2012 – May 2015

IISc UG Programme

Undergraduate Instructor

- Facilitated electronics laboratories for undergraduate students

January 2009 – June 2012

Raghu Institute of Technology

Lecturer

- Delivered lectures on electronics subjects for undergraduate students
- Supervised electronics laboratory sessions for undergraduates

Projects

Coyote

- Conducted Schematic Design Reviews
- Performed PCB Layout Reviews
- Ensured compliance with FCC and CE certification standards

Education

Master of Technology

IIIT Hyderabad
2007
6.52

VISA Status

Business Visa

April 2024 - April 2034
holds valid visitor VISA for Canada and B1 B2 Visa for USA
