PROFILE SUMMARY

Strategic UX Design Leader and Sr. AVP with 23 years of experience and multiple innovation awards, bringing a rare combination of creative leadership, technical fluency, and enterprise UX acumen to every engagement. Global experience in IT, product development, financial services, and banking, driving innovation & delivering user-centric solutions at scale. Proven expertise in Design Thinking, UX strategy, user research, interaction design, and cross-functional collaboration

CORE COMPETENCIES

- Adept at steering large, diverse design teams and partnering with stakeholders to align business goals with seamless digital experiences
- Successfully delivered enterprise-level UX strategy & high-impact design solutions across complex product ecosystems
- Hands-on experience in leading global UX initiatives, managing high-performance teams, and developing award-winning, patented design assets
- Expertise in Figma, Adobe XD, Sketch, Axure, and cutting-edge usability & testing tools
- Recognized for building high-performing, globally distributed design teams and fostering a collaborative, research-driven culture
- A passionate advocate for human-centered design, accessibility standards, and strategic UX investments that drive ROI, adoption, and customer satisfaction

ACCOMPLISHMENTS

- Accenture ACE Award, Wall of Fame, Exemplary Achiever Award (FY20 Q2) - 2020
- Champion Awards, Innovation and Lead in the New Automation Champ Award (FY 19 Q3) - 2019
- Winner of Global Technology Innovation Award - 2018
- 6 product design patents

SKILLS

Experience & Design

- User Research | User Flow
- Information Architecture
- User Journey centric design
- Prototyping & Wireframe
- Visual & Interaction Design
- Usability Testing
- Accessibility
- Heuristic Review and UX Audit

Soft Skills

- Communication
- Collaboration
- Empathy
- Problem-solving
- Critical thinking
- Change Adaptability

Applied

- User Centered Design
- Cross channel design
- Design for accessibility
- Data-informed design
- Content and UX writing
- Problem-solving

Leadership & Management

- UX Vision, Strategy & Roadmap
- Stakeholder management
- Project planning & Management
- Business development for design
- Design & Brand Strategy
- Design insights and Value innovation
- Content Strategy & Design presence
- Mentoring & Coaching

TECHNICAL SKILLS

- **Prototyping Tools:** Figma | Adobe XD | Sketch | Invision | MS Axure RP | Just-In-Mind | Principle | Balsamiq
- **Usability Testing Tools:** User Zoom | Usability Hub | Optimal Workshop | User Testing after User Zoom
- **Design Software:** Adobe CC
- **Design Collaboration Tool:** Mural | Miro
- **Web Languages:** HTML | CSS | Responsive Web Designing | Google Material Design | Bootstrap Cards Designing | W3C CSS Designing | Cross-Browser Compatibility on Major Web Browsers

CERTIFICATIONS & TRAINING

- User Zoom Advance Certification
- User Zoom Essential Certification
- AWS Certified Cloud Practitioner
- Applied Behavioural Design
- Introduction to Psychology
- Emotional Design Psychology & Neuroscience (EDP)
- Psychology for Digital Behaviour Change (DBC)
- MIT Sloan - Certification, Mastering Design Thinking
- HFI - CUA, Completed 10-day classroom training

MEMBERSHIP

- IAAP - Professional Member

WORK EXPERIENCE

Wells Fargo

Jul 2023 - Till Date

Sr. AVP User Experience Design & Strategy

- Leading and driving design iteration sessions and constructive critiques to elevate design quality, ensuring solutions effectively address the needs of users, businesses, and product teams
- Champion the user experience process to drive a cultural shift toward user-centered design & development across the organization and within an enterprise Scrum environment
- Driving timely delivery by proactively managing risks, meeting deadlines, and escalating concerns promptly to keep projects on track
- Provide ongoing support to the engineering team through regular UX review checkpoints to identify critical usability issues and ensure interface builds faithfully reflect the delivered designs
- Leveraging research insights to craft UX strategies and deliver data-driven design solutions for complex enterprise products and tools
- Partnering with product teams to transform business needs and technical capabilities into compelling design solutions, leveraging industry standards and best practices in interaction, content, and visual design
- Determining the research requirements, designing, and carrying out remote research studies, including expert reviews, user interviews, UX audits, quick iterative prototype testing, time-on-task testing, information architecture (IA) testing, and usability testing on a range of enterprise tools and products
- Employing Figma to create concepts, wireframes, prototypes, and high-fidelity designs while following company policies and design processes
- Equipping the engineering team with premium design assets and clear, detailed guidance to ensure thorough understanding and flawless implementation

Yuj Designs

Jul 2022 - Aug 2023

Design Director (User Experience)

- Steered creative direction and strategy across diverse client projects, drove high-quality, innovative design solutions that accelerate brand innovation
- Led and inspired team members, cultivating a dynamic and empowered culture that fuels creativity and growth
- Partnered with client teams to ensure efficient resource allocation, timely delivery, and budget adherence, while proactively identifying growth opportunities
- Served as the trusted point of contact for clients, confidently articulated & advocated design solutions that resonated with diverse audiences and drove project success
- Worked closely with internal and external stakeholders to ensure seamless project design continuity and effectively resolve complex strategic and design challenges
- Stayed ahead of the curve by actively researching and integrating the latest creative, design, and cultural trends into all design deliverables

Accenture

Mar 2017 - Jun 2022

Manager (User Experience) | Dec 2021 - Jun 2022

- Directed design portfolios and developed innovative user experience solutions for products and software
- Ensured consistent visual alignment and optimized efficiency across all portfolios and products
- Partnered with the global design team to shape and deliver strategic design decisions at the organizational level
- Established and elevated design processes, tools, and culture to set industry-leading standards for excellence in design
- Fostered and built a team culture rooted in diversity, inclusion, and equity, where every member feels empowered to contribute authentically and bring their whole selves to work
- Recruited, retained, and cultivated top talent to build a diverse and dynamic team. Offered consistent guidance and mentorship while fostering an inclusive culture where every individual can excel, grow, and contribute their best work
- Effectively managed complex business challenges and demonstrated strong conflict resolution skills to achieve positive, strategic outcomes

Associate Manager (User Experience Engineering) | Dec 2019 - Nov 2021

- Defined strategic user experience goals & design principles, converted technological, operational, and functional limitations into human-centered opportunities
- Led strategic resolution of complex design challenges, oversaw timelines and deliverables, steered production processes, and communicated evolving project goals
- Created comprehensive brand guidelines that establish a cohesive aesthetic system, developed detailed user personas to identify target audiences, mapped user journeys, and crafted experiences that surprise and delight
- Effectively articulated and justified design decisions through user research insights, heuristic analysis, and adherence to usability best practices
- Maintained alignment with best practices and industry trends, while proactively discovering unique, visionary, and innovative growth opportunities
- Collaborated closely with key stakeholders to ensure the successful execution of organizational initiatives
- Precisely documented design decisions to facilitate understanding and collaboration across the broader design studio and key partner teams
- Facilitated and led design workshops and brainstorming sessions to capture requirements and gather insightful feedback on deliverables
- Established and championed people management responsibilities for individual designers, ensuring their continuous professional growth and development
- Clearly communicated, robustly defended, and collaboratively built consensus around a unified design and interaction model
- Worked together across disciplines by offering managers and technical architects to coordinate, set priorities, and oversee implementation

Team Lead (User Experience Engineering) | Mar 2017 - Nov 2019

- Led, managed and facilitated design systems, including brand identity, brand voice, UI / UX, and aesthetic consistency and coherence across the entire organization.
- Managed and mentored a versatile team of user experience designers, visual designers, design researchers, and developers to ensure delightful user experiences
- Spearheaded, mentored, and empowered a growing team of open-minded designers by creating a positive environment for experimentation and execution.
