SKILLS

- Design Validation & Testing
- Instruments (Oscilloscope, Multimeter)
- Worst Case Analysis
- Embedded C
- Embedded Systems Fundamentals
- PCB Basics
- Microcontrollers
- Communication Protocols (I2C, SPI, UART)
- Prototype Testing & Validation
- Analytical Thinking
- Communication Skills

LANGUAGE

English	Excellent
Hindi	Excellent
Telugu	Excellent

ABOUT ME

Electronics and Communication Engineering graduate with 1 year of experience and an interest in automotive R&D and system-level design. Strong foundation in embedded systems, testing, validation, and basic design analysis, with the ability to follow standard engineering processes and support product development. Eager to contribute to efficient and reliable automotive solutions in a design and validation role.

WORK EXPERIENCE

-  Graduate Engineer Trainee at Foxconn - Hyderabad
October 2024- July 2025
 - Assisted in production and material planning through scheduling and inventory monitoring.
 - Supported capacity planning for effective manpower and machine utilization.
 - Coordinated with cross-functional teams to ensure smooth operations and dispatch.
 - Maintained inventory balance while improving efficiency and reducing delays.
-  Jr. Trainee Engineer at Pert Info Solutions
September 2025- January 2026
 - Assisted in IoT smart device testing and validation
 - Performed functional testing and troubleshooting
 - Used oscilloscope and multimeter for debugging
 - Supported prototype assembly, soldering, and rework
 - Conducted performance and reliability checks
 - Collaborated with R&D during product validation

EDUCATION

-  Bachelor's Degree in Electronics and Communication Engineering from Guru Nanak institutions
2021 - 2024
-  Diploma in Industrial Electronics from Govt. Institute of Electronics
2017 - 2021
