Director – Cloud, Platform Engineering & AI Transformation | Global Service Delivery | Enterprise Modernization | AI-Ops

PROFESSIONAL SUMMARY

Engineering Leader with **25+ years of experience** driving **global service delivery, cloud platform transformation, and AI-led modernization** across **BFSI, Telecom, Insurance, IoT and infrastructure domains**. Proven in **scaling distributed teams (150+)** across **US, UK, Europe, and APAC**, delivering **20–40% cost optimization, productivity gains**, and resilient operations. Strong track record in **building CoEs**, leading complex transitions, and **engaging CXO stakeholders** to drive **large-scale managed services transformation and delivery**

SELECTED LEADERSHIP IMPACT

- Led global service delivery and large-scale cloud modernization programs across BFSI, Telecom & Storage clients, delivering 20–30% infrastructure cost optimization and improved operational efficiency
- Onboarded 120+ global enterprises to AIOps platform across US, UK and APAC regions, significantly improving automation coverage, observability maturity and incident resolution efficiency
- Cloud Strategy & Modernization — Cloud Architecture (AWS • Azure • GCP) • Cloud Migration • Platform Engineering
- Directed IBM–Kyndryl resiliency transformation ensuring modernization continuity
- Owned P&L governance driving margin improvement and scalable growth

TECHNOLOGY LEADERSHIP

- Cloud & Platform Engineering — AWS, Azure, GCP • Architecture, Migration, Modernization • Multi-tenant Platform
- Product & IoT Systems — End-to-End Product Engineering • Edge-to-Cloud Integration • Connected Platforms
- Data, AI & AIOps — AI/ML, GenAI • Agentic AI • Observability, Telemetry • Predictive Analytics
- DevOps & Engineering Excellence — CI/CD • Release Governance • Agile at Scale • Productivity Acceleration
- Enterprise Architecture & Resilience — Cloud-Native • Microservices • multi-Region DR • Resiliency Engineering
- Infrastructure & Hybrid Cloud — Compute, Storage, Network Modernization • Hybrid Integration
- Service Delivery & Managed Services — SLA/KPI Governance • Incident, Problem, Change Management • Operational Excellence

OPERATING MODEL & TRANSFORMATION LEADERSHIP

- Global Delivery & Operating Model — Distributed Governance across multi-region teams (US, UK, EU, APAC)
- Delivery Excellence Frameworks & Program & Portfolio Governance — Multi-year Transformation
- Financial Ownership & Optimization — Cost Center Leadership • P&L Accountability • Margin Improvement Initiatives
- Strategic Partnerships — Hyperscaler Engagement (AWS • Azure • GCP) • Tech Roadmap Co-Creation
- Capability Transformation — CoE Setup • Leadership Pipeline Development • Talent Scaling (100+ Engineers)
- Risk, Compliance & Platform Governance — Regulatory Alignment • Enterprise Platform Modernization Strategy

DOMAIN EXPERTISE

- Banking & Financial Services • Telecom • Insurance • IoT • Storage & DR • Analytics • AI-Driven Operations

CERTIFICATIONS

- PMP® (PMI) Certified • Lean Six Sigma Certified • Microsoft Certified – Agentic AI • Bullet Proof Manager (Crestcom) • Google Analytics Certified • AWS Trained Professional • Oracle Certified Professional

EDUCATIONS

- MCA & BCA — Devi Ahilya Vishwavidyalaya, Indore - India • 1995–2000

Key Skills

Multi-Cloud (AWS • Azure • GCP) • Platform Engineering • Cloud Operating Model • Infrastructure Modernization • FinOps & Security • Resiliency & DR • AIOps & Observability • GenAI & Intelligent Automation • DevOps & SRE • Enterprise Architecture • Program & Portfolio Governance • Global Delivery • P&L & Margin Optimization • Hyperscaler Alliances • Digital Transformation • Kubernetes • APIs & Microservices • Product Strategy & Lifecycle • Platform Scaling • Customer Experience (CX) • Go-to-Market • Stakeholder Management

PROFESSIONAL EXPERIENCE

Kyndryl India — Associate Director, Software Engineering | Bangalore | Sep 2021 – Present

- Led global onboarding of 120+ enterprise clients onto Kyndryl Bridge AIOps platform across US, UK, EU and APAC, improving automation coverage, observability maturity, SLA compliance and delivery predictability.
- Directed \$15M+ cloud-native modernization and platform transformation programs for Tier-1 clients, delivering 20–30% cost optimization, improved scalability and enhanced resiliency across multi-region environments.
- Built and scaled global engineering organization (150+), driving IBM–Kyndryl transition, GenAI-led automation, and DevOps transformation, improving productivity (~25%) and reducing incident resolution timelines (~20%).

IBM — Global Program Manager | Bangalore | Aug 2020 – Sep 2021

- Led global service delivery and program execution across compute, network and resiliency portfolios (\$10M+), improving platform performance, scalability and release cadence across US, UK, EU and India.
- Delivered enterprise cloud and infrastructure modernization solutions for Tier-1 banking clients, enhancing resiliency posture, security compliance and operational efficiency.
- Drove IBM–Kyndryl transition initiatives including tooling migration, governance alignment and financial optimization, achieving 10–15% cost improvements and margin efficiency.

Johnson Controls — Engineering Manager | Pune | Dec 2018 – Aug 2020

- Established Cloud and DevOps Center of Excellence, defining platform engineering standards, automation frameworks and global operating model for product engineering teams.
- Owned end-to-end product engineering for Lux Thermostats platform across IoT edge, cloud, mobile and enterprise systems, delivering scalable, secure and high-availability solutions across global markets.

Think Analytics — Senior Project Manager | India / UK | Sep 2016 – Dec 2018

- Led India delivery for predictive analytics SaaS platform, establishing DevOps and Mobility CoEs, driving scalable data platform delivery, CXO engagement, and improving client retention across multi-year global engagements.

Calsoft Inc. — Project Manager | India | Oct 2014 – Sep 2016

- Led end-to-end delivery of software-defined storage, backup/recovery, and cloud data platform solutions for Silicon Valley startups, managing full lifecycle R&D and delivering scalable, high-performance product implementations.

Tech Mahindra — Delivery Manager | India | Dec 2010 – Oct 2014 (Earlier: Dec 2003 – Jul 2005)

- Led large-scale telecom transformation programs for British Telecom, managing multi-vendor delivery across 150+ resources in colo environment, ensuring governance, SLA adherence, and high-quality execution in complex global environments

Amdocs — Group Lead | India | Jul 2008 – Dec 2010 (Earlier: Jul 2005 – Jul 2006)

- Led OSS/BSS product deployment and integration for Tier-1 telecom clients, managing database and infrastructure teams to ensure high availability, scalability, and performance of critical billing and data platforms.

Cognizant Technology — Group Lead | US & India | Jul 2006 – Jul 2008

- Led application development for global financial services clients, delivering asset management and payment platforms while managing cross-functional teams and ensuring quality and regulatory alignment.

Bharti Telecom (Airtel) — System Engineer | India | Apr 2000 – Dec 2003

- Developed and supported OSS/BSS systems including billing, rating, and service provisioning, contributing to inter-operator billing and reconciliation solutions in high-volume telecom environments.
