

GIRIDHAR PINNINTI

☎ 7702801180 | ✉ giridharpinninti@gmail.com | 📍 Tadepalligudem

Summary

System Operations professional with 5 years of experience in the Railway Signaling industry. Expertise in system operations, analysis, interfacing, and interlocking. Proven ability to enhance operational efficiency and ensure safety standards. Strong analytical skills applied to optimize signaling systems.

Skills

- Proficient knowledge on the Railway signalling Domain, Principles, Locking and Standards, Overlaps & Isolation
- Knowledge on Interlocking & Interface circuits, Concepts and Design from SCR to the wayside
- Knowledge on RDSO 2011 Logics, Signaling Interlocking Plan and Route Control Chart
- Knowledge on Table of control, FAT & SAT.
- Basic knowledge on Train Collision Avoidance System (KAVACH)
- Basic knowledge on Train detection devices & Electronic interlocking
- Basic knowledge on Engineering Scale Plan and Cable Core Plan
- AutoCAD (2D Drafting – Layouts, As-Built Drawings)

Experience

Junior Engineer (Signal) / Assistant Manager

Aarvee Engineering Consultants Ltd.

Jan 2026 – Present

- Working on Project Management Services (PMS) for Automatic Block Signalling (ABS)
- Assisting Authority Engineer in supervision, quality control, and compliance with Indian Railways standards
- Assisted in AutoCAD drafting, site layouts, and documentation for Railway Signalling projects
- Coordinating with contractors and site teams for execution, testing, and commissioning of signalling works
- Monitoring site progress, maintaining technical documentation, and preparing daily/weekly reports.

Signalling Design Engineer Trainee

GBH RAIL SERVICES Pvt. Ltd, Bangalore, Karnataka

May 2025 – Dec 2025

- SIP Designing and Track Bonding Plans using AutoCAD.

CDA (Customer Data Analyst)

Efftronics System Private Ltd, Mangalagiri ,AP.

Feb 2020 - Nov 2024

- Prepared database and Data logger configurations for new/existing products.
- Created Railway station yard diagrams and linked with datalogger database.
- Developed RDSO fault logic, performed analysis and maintained data using Efftronics tools.
- Monitored NMDL and simulation yards; conducted simulation analysis and modifications.
- Installed and maintained Control Office Application and CMUs, Servers and Test room equipment.
- Managed Oracle installation, user creation and backup procedures by using SQL.
- Ability to work with Team and Good Customer Management.

Project

System Integration Testing – Diwa Junction RRI, Central Railway, Maharashtra

Client: Rail Vikas Nigam Ltd. (RVNL)

Duration: Jun 2021 – Nov 2021

- Performed various tests and documented test cases for system integration testing.
- Coordinated with Railway officials to ensure smooth execution.
- Collaborated with developers in agile teams to deliver high-quality software.
- Tracked and documented defects efficiently.

Education

Bachelor of Technology (CSE) - 2019

Sasi Institute of Technology and Engineering, Tadepalligudem, A.P

Diploma (CME)

Sri Vasavi Engineering College, Tadepalligudem, West Godavari, A.P

SSC

Sri Lalitha Concept School, Tadepalligudem, West Godavari, A.P

Accomplishments

- Worked across 6+ Indian Railway divisions.
- Handled 300+ product data sets.

Certifications

- Certification in AutoCAD – National Skill Development Institute, Hyderabad.
- Successfully completed a One Week Training on KAVACH Design Technology at IRISSET (Indian Railways Institute of Signal Engineering and Telecommunications)

Languages

Telugu, Hindi, English
