Professional Summary

Senior UX Designer & UX Strategist with 16+ years of experience crafting scalable, user-centered digital products across web, mobile, and enterprise platforms. I specialize in simplifying complex systems and transforming business challenges into intuitive, data-driven experiences that drive product adoption and measurable business impact.

I bring deep expertise across the **end-to-end product design lifecycle**—UX strategy, user research, information architecture, interaction design, prototyping, usability testing, and scalable design systems. My approach blends **human-centered design, product thinking, and data insights** to create solutions that balance user needs, business goals, and technical feasibility.

I actively leverage **Figma, Figma AI, and AI-assisted design workflows** to accelerate ideation, optimize design systems, and improve design efficiency in modern product teams.

Over the years, I have designed digital solutions across industries including Retail, Automotive, Banking, Finance, Insurance, Healthcare, Education, CPG, and Cloud & AI platforms, delivering experiences for both complex enterprise ecosystems and consumer-facing products.

I'm passionate about **building scalable design systems, improving usability through experimentation, and collaborating with cross-functional teams** to create digital products that are not only intuitive and accessible, but also deliver real business value.

Lead UX

Tech Mahindra

16 Dec 2025 – Present, India (Kolkata)

Leading UX initiatives at Tech Mahindra and delivering innovative design solutions for enterprise automotive clients. Currently collaborating with a global automotive manufacturer to enhance digital experiences across customer-facing mobile applications.

Key Responsibilities & Contributions:

- Lead end-to-end UX design for automotive digital products, including dashboards and companion mobile applications.
- Collaborate with cross-functional teams across multiple geographies to define UX strategy, product vision, and experience roadmaps.
- Conduct user research, usability testing, and journey mapping to improve the usability of mobile apps.
- Develop and maintain design systems, design tokens, and UX guidelines to ensure consistency and scalability across the automotive product ecosystem.
- Work closely with product managers, engineers, and other teams to translate user needs and business requirements into production-ready design solutions.

Lead UX Consultant (Usability Engineer)

Lexmark

Dec 2022 – Nov 2025, India (Kolkata)

Designed intuitive and engaging user experiences across smart sorting devices, mobile applications, dashboards, web platforms, and IoT ecosystems. Translated user research and stakeholder insights into actionable design solutions.

Key Responsibilities & Contributions:

- Conducted **user research, usability studies, and stakeholder interviews** to inform product decisions.
- Designed **wireframes, mockups, and high-fidelity interfaces** for iOS, iPad, web, and IoT platforms.
- Created **interactive prototypes** for retail operations, queue monitoring, and AI-driven features for **Optra Edge and smart sorting devices**.
- Led **UX design for a smart sorting IoT device**, collaborating with product and engineering teams.
- Performed **usability testing and iterative design improvements** to enhance user experience.

- Designed **visual assets, dashboards, and detailed design documentation** to support seamless engineering implementation.

Awards & Recognition:

- Winner – India Focus to Future (F2F) Hackathon 2024.
- Winner – StratBiz Brilliance: Mastering Business Acumen and Strategic Mind 2024.
- MAA Award 2024 – Recognized for excellence, ownership, and impact across design and analytics initiatives.

Assistant Consultant (UX Designer)

Tata Consultancy Services

May 2018 – Dec 2022, India (Kolkata)

Delivered end-to-end UX solutions across multiple domains including Retail, Consumer Packaged Goods (CPG), Finance, Insurance, Healthcare, and Education.

Key Responsibilities & Contributions:

- Advocated for user-centered design principles throughout the product lifecycle.
- Conducted **user research, interviews, surveys, and heuristic evaluations** to identify usability opportunities.
- Designed **low- and high-fidelity wireframes, prototypes, and design specifications**.
- Improved user experience through **iterative testing and data-driven design decisions**.
- Contributed to **AR/VR mobile solutions and innovative proof-of-concept designs**.
- Mentored **interns and junior designers** to foster design excellence.
- Collaborated with **cross-functional teams** to ensure consistent design delivery.

Awards & Recognition:

- On The Spot Award 2021 – Best UX design solution delivered on time.
- Extra Mile Award 2018 – Recognition for remarkable contribution to TCS Interactive.

Senior Software Engineer (UX Designer)

Tech Mahindra

Jun 2016 – May 2018, India (Kolkata)

Enhanced user experiences through research-driven interface design and usability improvements across multiple domains, including education, automotive, and insurance.

Key Responsibilities & Contributions:

- Conducted user interviews and usability testing sessions to validate design decisions.
- Developed wireframes, sketches, and visual mockups to communicate design concepts.

Awards:

- Pat on the Back Award 2018 – On-time delivery and quality UX solutions.

Visualizer

Web Spiders

Apr 2015 – Jun 2016, India (Kolkata)

Contributed to Proof of Concept (POC) designs and early-stage product explorations. Designed UX and UI for mobile and web applications.

Key Responsibilities & Contributions:

- Designed low- and high-fidelity wireframes for web and mobile applications.
- Built interactive prototypes for usability testing and designed AI chatbot interfaces focused on conversational UX.

Senior Web Designer

Indus Net Technologies

Mar 2012 – Apr 2015, India (Kolkata)

Worked as a senior design resource across multiple digital initiatives including mobile applications, branding, and UI design systems.

Key Responsibilities & Contributions:

- Designed UX and UI for mobile applications and websites.
- Created wireframes and high-fidelity visual mockups. Delivered UI assets and design guidelines for dev teams.

Awards:

- Certificate of Appreciation 2014 - Contribution to 17th Annual Day Event.
- Team Extraordinaire Award 2014 - Outstanding contribution to the design team.
- T-Shirt Design Award 2013 - Creative participation in company design initiatives.

Graphic Designer

Esolz Technologies

Jul 2009 – Mar 2012, India (Kolkata)

Joined the creative team as an intern and developed strong foundations in branding, visual design, and digital communication.

Key Responsibilities & Contributions:

- Assisted in branding and identity design projects.
- Delivered graphic design solutions for multiple clients.

Education

Bachelor of Commerce (B.Com), Allahabad University - 2006

Higher Secondary (HS), Allahabad Inter College - 2003

High School, Allahabad Inter College - 2001

Professional Certifications

- User Experience Certification – Udemy.
- Designing for Augmented Reality – Interaction Design Foundation.
- Affordances & Designing Intuitive Interfaces – Interaction Design Foundation.
- Empathy in UX Design – LinkedIn Learning.
- Business Storytelling Program – Tata Management Training Centre (TMTC).
