

KIRAN AKKU

PROFILE

Experienced and dedicated Railway CBTC Signalling Engineer with 7+ years of hands-on experience across Maintenance, Warranty, Testing & Commissioning and Software Testing of advanced signalling systems. Proven expertise in ensuring system reliability, safety, and performance throughout the project lifecycle, with strong collaboration across multidisciplinary teams to deliver projects on time and in compliance with industry standards.

PROFESSIONAL SUMMARY

CYIENT Working as a **Senior Software - Testing Engineer** from 'Oct 2023 to Till Date' – at **CYIENT**.

Projects : Seltrac CBTC Product 3.6: France; R12b0 & R13b0: Singapore; DUAT: Hong Kong.
Company : CYIENT Ltd.
Role : Testing Engineer.
Technology : Seltrac CBTC System – HITACHI (Formerly THALES).

KEY RESPONSIBILITIES:

- Execute Functional, Operational, and System test cases (ATS, VOBC, and ZC) in accordance with defined test procedures and project specifications, ensuring strict compliance throughout.
- Set up and configure test environments in VSM's by using comprehensive cloud computing platforms like Amazon-AWS and Microsoft-Azure.
- Analyze test results, logs, and report defects, deviations, and redlines, and collaborate with developers to ensure timely resolution.
- Prepare and maintain comprehensive documentation for all executed test cases to ensure transparency and traceability for future audits and reviews.
- Review test cases executed by peers, provide constructive feedback, and ensure consistent adherence to testing standards to support overall quality assurance.
- Update test procedures based on approved deviations or redlines received from the client.
- Manage requirements using the DOORS tool and handle documentation through the TMSD tool, including defining Means of Proofs for customer submissions.
- Drive continuous improvement by optimizing testing processes and incorporating lessons learned (ReX) from previous builds.
- Report and escalate any events that could impact Quality, Cost, or Delivery (QCD) commitments.

ALSTOM Working as a **Senior Testing & Commissioning Engineer- Signalling** from 'Sep 2021 to Sep 2023' – at **Alstom Transport India Limited**.

Projects : BMRC; LMRC; KMRL & PMRP
Company : Alstom Transport India Limited.
Role : Senior T&C Engineer.
Technology : Alstom U200 & U400 Systems.

KEY RESPONSIBILITIES:

- Accountable for the execution of Signalling T&C activities in accordance with the project plan, approved procedures, contract requirements, quality control, safety, and company/department directives.
- Develop T&C test procedures and test documents for all sub-systems like ATS, ATC, DCS, IXL, etc., based on defined specifications to meet contractual requirements.
- Performing Testing & Commissioning activities, including technical verification test (PAT), Integration test (SIT) and functional test (SAT).
- Accountable for the correct interface management with the project team/client/subcontractors during the T&C phase.
- Recording faults and reporting any defects or deviations from the given project specification. Investigating problems, diagnose/repair faults identified during testing, analyzing the test results and test logs.
- Reporting anomaly arising during site testing and Interface with Engineering and V&V subsystem leads for closure of anomaly and optimizing site tests.

- Ensuring that all design related issues are correctly reported in adequate tools like Clear Quest, including the defect description and associated test context.
- Actively participating in the technical discussions of ATS, ATC, DCS & IXL sub-systems directly with the customer/ Installation team/ Design team and Verification & Validation teams.
- Lending support to multiple projects handled by Alstom Transport India Ltd., by involving with on-site ATS & DCS testing team for complete commissioning of Kochi metro project and involving in deployment of baseline in Lucknow metro project & providing analytical inputs on requirement basis to ensure smooth operation.
- Played a key role in Testing & Commissioning of ATS, DCS & IXL systems of Pune metro project.

Worked as a **Signalling Maintainer** from 'Oct 2018 to Sep 2021' – at **Keolis Hyderabad Mass Rapid Transit System**.

Project : HMR (Hyderabad Metro Rail Ltd).
Company : Keolis Hyderabad Mass Rapid Transit System.
Role : Signalling Maintainer.
Technology : Thales Seltrac CBTC & LockTrac SSI Systems.

KEY RESPONSIBILITIES:

- Maintenance of Thales Signalling System based on Seltrac CBTC & LockTrac SSI.
- Playing a key role in preventive & corrective maintenance of onboard, wayside & data communication systems.
- Carryout inspections, service, maintenance, overhaul, problem analysis, fault finding, repairs, modification, upgrades to software changes, functional testing to equipment & components of signalling systems.
- Supporting for Failure Management System, Asset codification, SOPs & Job plan preparation.
- Demonstrating RAMS for service affecting failures & non-service affecting failures.
- Allocating routine maintenance tasks following the technical maintenance plan and servicing schedule.
- Attending fault rectification tasks using service schedules and maintenance instructions to guide corrective & preventive activities.
- Responsible for the collection of technical facts related to failures, Investigate, and prepare a report on any incident associated with the performance of signalling equipment and systems, Use fault history in the diagnostics of elusive or repetitive faults.
- Responsible for rectification of ATO, ATP, ATS, WRU, MRU, Point Machine, Axle Counter, Signals & DCS related failures by analyzing BOC.
- Responsible for keeping asset records & supporting task completion reports in the Asset Management System.
- Undertaking PIC responsibilities, to always act safely and to work within the safety systems developed for their workplace.

Worked as a **Graduate Apprentice Trainee** from 'April 2018 to Oct 2018' in **MIDHANI** Hyderabad.

KEY RESPONSIBILITIES:

- Attending and taking part in as many learning opportunities as possible. Identifying problems and finding ways to resolve them is key to being an apprentice.
- Adhering to workplace procedures & standards, updating training records, and completing given tasks within the stipulated time.
- Advanced in practical skills, covering the major aspects of the industry.

BEHAVIORAL COMPETENCIES

- Ability to work independently or cooperatively as part of a team to meet deadlines.
- Effective deliverance of thoughts and ideas.
- Honest, Responsible and Strong work ethics, who works well under pressure.

TECHNICAL COMPETENCIES & TOOLS

- AWS, CITRIX
- TMSD
- DOORS
- AEC-tpPLM
- ClearQuest
- AutoCAD
- Project Management
- PLC Programming
- EPLAN Electric P8
- MATLAB / Simulink, PSPIICE

AWARDS

Awarded with Most Valued Performer Bronze in Mar'2025. By Cyient for exceptional contribution towards the growth of the company.

Awarded with Silver Trophy in Apr'2023. By Alstom for demonstrating Agility & Hard work, with meticulous planning and need basis driving of execution activity of BMRCL Reach-1 Extn.

Received Gold Trophy in Aug'2022. By Alstom for extending support in commissioning of Kochi Metro Rail Project, Deployment of Baselines in Pune & Lucknow Metro Rail Projects and for having a good command in Alstom's U200 & U400 ATS solutions.

ACADEMICS

Degree	University/Board	College	Year
B. Tech (EEE)	Jawaharlal Nehru Technological University-JNTUH	TKR Engineering college	2014-2017
Diploma (EEE)	State Board of Technical Education and Training	Quli Qutub Shah Govt. Polytechnic College	2011-2014

CERTIFICATIONS

- Certified in Foundations of Project Management by Google, Certified by Coursera.
- Signaling system handling competency certification.
- Certified in ERTMS e-Learning modules-1 & 2 organized by Railway Talents.
- Metro Rail safety certification.
- Certified in AutoCAD through e-Learning by Udemy.
- Certified in PLC programming at 'Central Institute of Tool Design' (CITD).
- Certified in industrial orientation program at 'Telangana State Daily Dairy Cooperative Federation Limited' (Formerly APDDCF).

PERSONAL DETAILS

Date of Birth : 10th July 1996
Nationality : Indian
Passport No : R5940932 (Valid upto-29/01/2028)
Gender : Male
Languages Known : English, Hindi, and Telugu
Address : Hyderabad, Telangana, India-501510.
Email : kiranakku96@gmail.com
Mobile : +91-8977483713
