Location: Hyderabad, India

Summary

Certified and visionary Enterprise Architect with over 22 years of experience in software engineering and solution architecture, including 15+ years in multi-solution enterprise design. Demonstrates strong global exposure, having led the delivery of scalable, cloud-native, and secure solutions across diverse industries and geographies. Proven ability to handle multiple concurrent engagements, resolve critical technical challenges, and align technology strategies with business goals. Expertise spans Platform Engineering, DevSecOps, Microservices, AI/ML, Adobe Marketing Cloud (AEM, Analytics etc.) and Cloud Platforms (AWS, Azure). Known for driving innovation, mentoring architecture teams, and leading enterprise transformation in fast-paced, high-growth environments.

Key Skills

- | | |
|--|--|
| + Enterprise Architecture & Strategy | + Innovation & Technology Roadmapping |
| + Cloud-Native Architecture (AWS, AEM, Salesforce) | + RFP/RFI Management & Pre-sales Architecture |
| + Platform Engineering & DevOps/DevSecOps | + Cross-functional Leadership & Talent Development |
| + Cybersecurity & Compliance | + Microservices & API Architecture |
| + Agile & SAFe Methodologies | + ML & Generative AI Integration |
| + Technical Governance & Standards | |
| + Stakeholder Engagement & Communication | |

Key Responsibilities

Strategic Technology Leadership | Enterprise Architecture | Technology Direction

- + Spearheaded large-scale digital transformation programs, aligning IT strategy with evolving business objectives.
- + Served on the Enterprise Architecture Review Board, establishing governance models and architectural standards.
- + Directed enterprise technology planning efforts, integrating innovation with scalability, security, and reliability imperatives.

Technical Innovation & Enterprise Architecture Excellence

- + Designed and governed cloud-native and hybrid enterprise architectures on AWS to support mission-critical workloads.
- + Defined and enforced enterprise DevSecOps practices to ensure compliance, risk management, and security governance.
- + Led development of secure, scalable platforms using microservices, APIs, and CI/CD automation frameworks.
- + Integrated machine learning and generative AI capabilities into enterprise platforms to drive intelligent automation.

Executive Stakeholder Engagement & Business Alignment

- + Acted as a trusted advisor to C-level executives on strategic technology initiatives and enterprise roadmap development.
- + Bridged technical vision and business outcomes, translating complex architectures into actionable strategies.
- + Partnered cross-functionally across product, engineering, and operations to deliver business-aligned initiatives.

Location: Hyderabad, India

Global Delivery Leadership & Client Engagement

- + Over a decade of U.S.-based leadership experience with Fortune 500 clients across multiple industries.
- + Delivered complex programs across North America and Europe, demonstrating cultural agility and operational excellence.
- + Oversaw multiple high-impact engagements, ensuring quality, stakeholder satisfaction, and measurable value delivery.
- + Led resolution of critical issues to maintain business continuity and client trust.

Organizational Leadership & Talent Development

- + Built and scaled global architecture and technology teams, driving high performance and innovation culture.
- + Mentored senior technologists and emerging leaders, shaping future enterprise architects and decision-makers.
- + Fostered a collaborative, inclusive environment focused on empowerment, continuous improvement, and cross-functional success.
- + Implemented people management strategies covering performance, development, succession, and retention.

Industry Domains

Healthcare | Life Sciences | Banking | Gaming | Media & Entertainment | Travel & Hospitality | Manufacturing | Technology | Insurance

Technology Stack

Category	Technologies / Platforms
Enterprise Architecture & Strategy	TOGAF ADM, ArchiMate, LeanIX, Architecture Review Boards, Reference Architectures, SAFe Agile, Platform Engineering, Technology Roadmapping
Cloud & Platform Engineering	AWS (EC2, S3, Lambda, EKS, CloudFormation), Azure, Hybrid & Multi-Cloud Architecture, Microservices, Serverless Computing, Event-Driven Architecture
DevOps, DevSecOps & MLOps	Jenkins, GitHub Actions, Azure DevOps, Docker, Kubernetes, CI/CD Automation, Shift-Left Security, Secure Pipelines, Model Lifecycle Integration, AI Pipeline Governance
Digital Experience & MarTech	Adobe Experience Manager (AEM, AEMaaCS), Adobe Edge Delivery Services, Adobe Analytics, Adobe Target, Adobe Campaign, Sitecore, Sitefinity, Drupal
AI, ML & Generative AI	AI-Driven Personalization, Predictive Analytics, Customer Segmentation Models, Recommendation Engines, Generative AI (LLM Integration), AI-Assisted Content Creation, Intelligent Automation, Responsible AI Adoption

LinkedIn: [linkedin.com/in/krishnakkancherla](https://www.linkedin.com/in/krishnakkancherla)

Location: Hyderabad, India

Category	Technologies / Platforms
Integration & API Management	REST, GraphQL, Dell Boomi, MuleSoft, Event-Based Integrations, Postman
Security & Compliance	OAuth2, SAML, JWT, IAM, OWASP Top 10, TLS, SOC2, GDPR, HIPAA, Enterprise Security Audits, AI Data Privacy & Governance
Programming & Frameworks	Java, JavaScript, Python, Groovy, Shell Scripting, Spring, Hibernate, Node.js
Web & Frontend	React, Angular, HTML5, CSS3
Data, Analytics & Observability	Adobe Analytics, Google Analytics, Customer Data Platforms (CDP), MySQL, PostgreSQL, Oracle, MongoDB, Splunk, Grafana, CloudWatch, Dynatrace

Educational Qualification

Master of Computer Applications (MCA) with distinction, Jawaharlal Nehru Technological University, 2004.

Professional Certifications

- The Open Group TOGAF® 9 Certified Enterprise Architect
- Certified Information Security Manager (CISM)
- AWS Certified Cloud Practitioner
- Java Enterprise Edition 5 Web Component Developer Certified Professional
- Java Standard Edition 6 Programmer Certified Professional

Work Summary

Director - Distribution Platforms

ValueMomentum, India (Sept 2025 – till date)

As a Director – Distribution platforms I am responsible for building and scaling enterprise Digital Experience Platform (DXP) capabilities while enabling AI-driven personalization, content optimization, and operational intelligence. Led strategy, delivery, and support for global client digital channels and corporate websites across Adobe, Sitecore, Sitefinity, and related DXP ecosystems, aligning platform innovation with measurable business outcomes.

Key Responsibilities

- Lead enterprise **DXP strategy and operations** across Adobe Experience Manager, Sitecore, Sitefinity, and corporate web platforms, integrating **AI-enabled capabilities** for personalization, content intelligence, and experience optimization.
- Build and scale a **DXP and AI-enabled digital practice**, establishing architecture standards, governance models, and reusable accelerators.
- Enable **AI-powered personalization and segmentation**, leveraging analytics, customer data platforms (CDP), and machine learning models to improve engagement and conversion.
- Oversee multi-product platform support, incorporating **predictive monitoring, intelligent alerting, and automation** to improve platform reliability and SLA performance.

Mobile : +91 9908 491 791

Email ID : krishnakkancherla@gmail.com

LinkedIn: [linkedin.com/in/krishnakkancherla](https://www.linkedin.com/in/krishnakkancherla)

Location: Hyderabad, India

- Direct enterprise corporate website programs, including global rollouts, multisite governance, localization, accessibility, and **AI-assisted content workflows**.
- Provide architectural oversight ensuring scalability, security, cloud readiness, and **responsible AI adoption** aligned with enterprise standards.
- Collaborate with marketing, digital, and IT leadership to integrate DXP platforms with **Mar tech, analytics, CRM, and AI services**.
- Lead and mentor cross-functional teams, promoting **AI literacy and adoption** across engineering, UX, and operations teams.
- Support pre-sales, solutioning, and partner engagements, articulating the **business value of AI-driven digital experiences**.

Principal Architect

Adobe Systems, India (Oct 2021 – Sept 2025)

Key Technologies:

- Architecture & Strategy Tools – PoC Development, Technical Specification Standards, Enterprise Architecture Frameworks
- Adobe Marketing Cloud – Adobe Experience Manager (AEM & AEMaaCS), Adobe Edge Delivery Services (EDS), Adobe Analytics, Adobe Target, Adobe Campaign
- Cloud Platforms – AWS, Azure
- Core Technologies – Java, Advanced Java Frameworks (Spring, Hibernate), Web Technologies, Cloud-native Development
- Infrastructure & DevOps – Docker, API Management, CI/CD Pipelines
- Edge Delivery –Content Delivery Optimization, CDN Strategies (e.g., Akamai, CloudFront)

Responsibilities:

- Architected and led the implementation of Adobe Experience Cloud solutions for Fortune 500 clients, including AEM, Adobe Analytics, Target, and Campaign.
- Acted as a strategic advisor to leadership and stakeholders to define and align digital strategy and technology roadmaps with business objectives.
- Partnered with stakeholders to influence platform decisions, prioritize roadmaps, and ensure alignment with enterprise goals and KPIs.
- Led health check assessments of client digital platforms and recommended optimizations for performance, scalability, and security.
- Delivered technical leadership for complex, multi-cloud deployments (AWS, Azure), ensuring platform reliability, availability, and compliance.
- Mentored and enabled teams through SME-level consulting on AEM best practices, modular architecture, and AEMaaCS modernization.
- Coordinated with globally distributed teams to manage delivery excellence, from architecture design through execution and post-deployment support.
- Designed and developed automation scripts to streamline and accelerate AEM content and asset migration initiatives, reducing manual effort and improving consistency across environments.
- Defined and maintained technical documentation, standards, and reusable assets for use across global projects within Adobe's content competency.
- Contributed to proposal development, client pitches, and pre-sales activities, creating architecture overviews, sizing, and solution positioning.

KRISHNA KANCHERLA

Email ID : krishnakkancherla@gmail.com

LinkedIn: [linkedin.com/in/krishnakkancherla](https://www.linkedin.com/in/krishnakkancherla)

Location: Hyderabad, India

- Led platform security audits and drove security compliance across implementations; organized regular awareness sessions to upskill teams.
- Provided technical guidance to Architects and Lead Developers across multiple projects, ensuring adherence to architecture standards and best practices.
- Proactively pursued self-learning in Generative AI technologies to identify practical integration use cases, enabling cross-team knowledge sharing and structured enablement initiatives.

Principal Architect, Sr. AEM Architect

EMD Millipore / Merck KGaA, USA (Apr 2017 – Sep 2021)

Key Technologies:

- Enterprise Architecture: LeanIX, SAFe Agile, DevSecOps
- Core Platforms: Adobe Experience Manager (AEM 6.4), Salesforce, Veeva CRM, Dell Boomi
- Cloud & Infra: AWS, Akamai, Azure
- DevOps & CI/CD: Jenkins, Copado, Own Backup, Bitbucket, Nagios XI, Dynatrace
- Analytics & Monitoring: Adobe Analytics, Google Analytics, Adobe Launch, Dynatrace, Nagios
- Test Automation: Selenium, Browser Stack, Jenkins

Responsibilities:

- Served as Principal Architect and Adobe SME, leading enterprise digital transformation across 200+ applications with a focus on scalability, security, and platform governance.
- Partnered with C-suite executives to define strategic IT roadmaps aligning business objectives with technology investments across Marketing and Sales divisions.
- Defined enterprise architecture strategy and technology roadmap, leveraging LeanIX for application portfolio management and rationalization.
- Led enterprise-wide application rationalization using LeanIX, streamlining 200+ applications by identifying redundancies and overlaps, enabling targeted decommissioning and consolidation that achieved 20–30% cost savings and improved operational efficiency.
- Enabled SAFe Agile practices across platform development teams, establishing agile governance, release predictability, and cross-vendor delivery alignment.
- Led cloud-native solution design on AWS for global AEM deployments, including autoscaling, disaster recovery, and security compliance.
- Oversaw vendor evaluation, technical due diligence, and contract negotiations, improving SLAs, cost efficiency, and strategic alignment with Adobe, Salesforce, and Akamai partners.
- Chaired the Technology Governance Board, reviewing architecture proposals, enforcing platform standards, and mentoring solution architects and senior developers.
- Standardized test automation frameworks and integrated Selenium, Browser Stack, and Jenkins for enterprise-wide testing aligned with DevOps processes.
- Led DevSecOps and release management strategy for 200+ AEM-hosted global websites, including rules of engagement and support SLAs across time zones.
- Acted as the technical liaison for Adobe partnership management, ensuring product license compliance and maximizing platform capabilities.
- Led and coordinated efforts of global distributed teams, ensuring seamless collaboration across multiple time zones and cultures while maintaining consistent delivery of high-quality solutions aligned with strategic goals.

LinkedIn: [linkedin.com/in/krishnakkancherla](https://www.linkedin.com/in/krishnakkancherla)

Location: Hyderabad, India

- Led security audits across platforms, ensuring all applications adhered to security compliance standards. Organized and conducted security awareness sessions across teams to promote best practices and enhance overall security posture.

Multiple Roles

India, Bahrain, USA

April 2004 to April 2017

Designation	Company Name	Duration
Senior Solution Architect	Wipro Technologies	March 2014 to April 2017
Associate Architect	Virtusa, USA	Aug 2012 to Feb 2014
Project Lead	L&T Infotech, USA	Jun 2011 to Aug 2012
Senior Computer Systems Analyst	IT People Gulf, Bahrain	Nov 2010 to Jun 2011
Senior Software Engineer	Springboard Technologies, India	Sep 2009 to Oct 2010
Software Engineer	JDA Software, India	Nov 2007 to Jun 2009
Associate Consultant	Capgemini, India	Sep 2006 to Nov 2007
Software Engineer	Patni Computers, India	Jun 2004 to Sep 2006

Technologies

- Digital Experience Platforms (DXP): Adobe Experience Manager (AEM/ CQ5.x), AEM Dispatcher, Apache Sling, OSGi, JCR, ATG
- Programming Languages: Java (Enterprise & Platform Development), Groovy, JSP, Servlets, JavaScript
- Frameworks & APIs: J2EE, Spring, Hibernate, Struts 2.0, EJB, Sling Models, REST, JAXB, AJAX, JUnit
- Cloud & Infrastructure: AWS (EC2, S3, CloudFront), Linux
- DevOps & CI/CD : Jenkins, Maven, Ant, CI/CD Automation
- Web & UI Technologies : HTML, SASS, Adobe XD
- Databases & BI: Oracle Database, Cognos 8.x (Framework Manager, Transformer), OLAP & Metadata Modeling
- Integration & Services: XML / Web Services, RESTful Integrations
- Application Servers: Tomcat, WebLogic, ATG Server
- Version Control & Tooling: Git, SVN, Mercurial, Crucible
- IDEs & Documentation: Eclipse, IntelliJ IDEA, Visio
- Content & Document Systems: Documentum (ECM), iText, Apache POI

Key Responsibilities (Progressive Growth: Developer → Senior Architect)

- Began as a hands-on Java developer, designing and implementing enterprise-grade applications using Java, J2EE, Spring, Hibernate, JSP, Servlets, and RESTful services.
- Developed and customized AEM/CQ-based solutions using OSGi services, Sling Models, JCR, and modular Maven builds, ensuring clean code, reusability, and performance.
- Implemented workflows, DAM structures, dispatcher configurations, caching strategies, and backend integrations to enhance authoring efficiency and runtime performance.

KRISHNA KANCHERLA

Mobile : +91 9908 491 791

Email ID : krishnakkancherla@gmail.com

LinkedIn: [linkedin.com/in/krishnakkancherla](https://www.linkedin.com/in/krishnakkancherla)

Location: Hyderabad, India

- Progressively took ownership of technical design and code quality, conducting code reviews, enforcing Java and AEM development standards, and resolving complex production issues.
- Led end-to-end SDLC execution, including requirements analysis, technical design, development coordination, CI/CD enablement, deployment, and production support across distributed teams.
- Designed modular, scalable AEM architectures, defining repository structure, component libraries, service layers, and integration patterns aligned with enterprise standards.
- Led platform migrations and upgrades, modernizing legacy CMS platforms (e.g., Interwoven) to AEM while ensuring data integrity, performance, and minimal business disruption.
- Acted as a technical lead and AEM SME, guiding teams on architectural patterns, Java extensibility, DevOps practices, and cloud deployment models.
- Collaborated closely with business, marketing, UX, analytics, and compliance stakeholders to translate functional requirements into scalable, secure technical solutions.
- Took ownership of enterprise architecture responsibilities, defining reference architectures, governance standards, and reusable assets for multi-site and multi-brand rollouts.
- Led pre-sales and solutioning engagements, contributing to RFP/RFI responses, architecture workshops, effort estimation, and executive-level presentations.
- Mentored developers, leads, and junior architects, building technical depth, leadership capability, and a culture of engineering excellence.

Work Experience

Designation	Employer	Duration
Director - Distribution Platforms	ValueMomentum	September 2025 to till date
Principal Architect	Adobe	October 2021 to September 2025
Principal IT Architect	EMD Millipore	April 2017 to September 2021
Senior Solution Architect	Wipro Technologies	March 2014 to April 2017
Associate Architect	Virtusa Inc.	August 2012 to February 2014
Project Lead	L&T Infotech	June 2011 to August 2012
Senior Computer Systems Analyst	IT People Gulf	November 2010 to May 2011
Senior Software Engineer	Springboard Technologies	September 2009 to October 2010
Software Engineer	JDA Software India Pvt. Ltd	November 2007 to June 2009
Associate Consultant	Capgemini India Pvt. Ltd	September 2006 to November 2007
Software Engineer	Patni Computer Systems	April 2004 to September 2006

Personal Information

- Full Name: Krishna Kalyan Kancherla
- Location: Hyderabad, India
- Marital Status: Married
- Kid: 13-year-old son with Special Needs (autism spectrum disorder)
- International Exposure: 10 years of work and stay in North Eastern states of USA.
