Electrical Engineer

Mobile No: +91 9398240433

Executive Summary:

Professional Summary Results-driven Electrical Engineer with 9+ years of experience in Oil & Gas, Electrical Engineering, and Industrial Construction sectors. Strong expertise in electrical system operations, commissioning, maintenance, and troubleshooting involving substations, transformers, DG systems, motors, and automation systems.

Hands-on experience in pipeline booster station operations, petroleum depot automation systems, PLC & SCADA troubleshooting, and power system infrastructure management. Skilled in team leadership, field service coordination, and ensuring strict compliance with OISD safety standards and industrial regulations.

Career Objective:

To pursue a highly rewarding career, seeking for a job in challenging and healthy work environment where I can utilize my skills and knowledge efficiently for organizational growth.

Experience:

Electrical Systems Engineer

Solveeasy Technologies Pvt Ltd – Bangalore

Feb 2026 – Mar 2026

Client: Fluence Energy

- Worked as an Electrical Systems Engineer at Solveeasy Technologies for Fluence Energy, contributing to grid-scale power systems and Battery Energy Storage Systems (BESS) projects.
- Studied and analyzed electrical schematics, protection philosophies, and overall system architecture of BESS to understand design and operational aspects.
- Supported preparation of detailed engineering documentation, technical reports, and project-related deliverables.
- Gained hands-on exposure to grid compliance standards, electrical safety practices, and integration of energy storage systems with power networks.
- Assisted in understanding system performance, protection coordination, and operational requirements for reliable grid-connected energy solutions.

Area Service Manager-Gilbarco Veeder Root

Apr 2025 – Nov 2025

- Managed end-to-end maintenance operations for petroleum dispensing units (Gilbarco Veeder-Root), ensuring high equipment reliability and customer satisfaction.
- Led and supervised a team of service technicians, providing technical guidance, performance oversight, and motivation to achieve service excellence.
- Planned and coordinated service activities, prioritized breakdown calls, and optimized resource allocation to minimize downtime.

- Acted as the key client interface for major OMCs (HPCL, IOCL, BPCL, Nayara), ensuring service delivery as per contractual and compliance requirements.
- Handled administrative and commercial activities including PO verification, quotation preparation, and procurement coordination.
- Resolved complex technical issues in dispensing systems, supporting field teams with expert troubleshooting.
- Reviewed warranty cases and identified opportunities for Annual Maintenance Contracts (AMC) to enhance service coverage and revenue.
- Ensured strict adherence to safety standards and regulatory compliance across all service operations.
- Implemented preventive maintenance strategies to improve equipment performance and reduce operational interruptions.

Field Engineer-AARVI ENCON LTD / PHISTREAM CONSULTING PRIVATE LIMITED / ANI INTEGRATED SERVICES LTD

Client: Hindustan Petroleum Corporation Limited (HPCL)

Sept 2019 – Apr 2024

- Provided operational and process support for HPCL VVSPL & VDPL pipelines at Vijayawada booster station.
- Managed daily booster station operations as per OISD-STD-141, including tank lineup, receipt/pumping, and product interface handling (MS/HSD/ATF).
- Handled emergencies, power failures, and PLC/SCADA issues with effective troubleshooting and quick restoration.
- Executed Cathodic Protection (CP) activities and performed sleeving to arrest leakage due to AC corrosion.
- Conducted pigging operations (intelligent & scraper) as per OISD standards.
- Ensured product quality compliance with IQCM standards.
- Operated and maintained 33/6.6 kV substations, ensuring reliable power supply.
- Managed 900 kW motors at pumping stations with preventive maintenance and troubleshooting.
- Performed maintenance activities as per OISD-STD-105 with proper work permits (testing, oil analysis, thermography).
- Led commissioning of VDPL motors and pumps with testing, alignment, and calibration.
- Conducted training for operators and technicians on operations, safety, and 33 kV systems.
- Supervised field personnel (line walkers, CP & SV guards) and ensured pipeline safety compliance.
- Performed UT testing, MOVs & filter maintenance, and electrical system inspections.
- Supported operations during shutdowns and emergencies with minimal downtime.
- Managed simultaneous operations of VVSPL & VDPL pipelines ensuring efficiency, safety, and compliance.
- Managed tank wagon unloading and ensured accurate product reconciliation.
- Operated TT gantry, performed dip checks, and calibrated tank trucks.
- Conducted daily reconciliation, safety observations, and depot maintenance checks.
- Prepared emergency plans (OISD-GND-168) and led monthly mock drills.
- Supervised electrical control room equipment as per OISD standards.
- Managed transformer and DG set operations for reliable performance and backup power.

Electrical Engineer-Devi Engineering and Construction Pvt Ltd / Sree Jayanti Enterprises
Client: Ramagundam Fertilizers and Chemicals Limited (RFCL)

July 2016 – Aug 2019

- Ensured reliability of plant electrical systems at RFCL through effective maintenance and operations.
- Maintained DG set records, service logs, and equipment condition reports.
- Directed pump house operations and managed pump/motor performance data.
- Led construction, commissioning, and operation of 220/133 kV and 133/33 kV substations, including HT/LT cable laying.
- Assigned and supervised daily tasks for electrical maintenance teams.
- Managed project works with strict adherence to safety protocols and work permits.
- Executed township electrical refurbishment including cable laying, substations, and feeder pillars.
- Handled emergency power management during floods, ensuring safe dewatering operations.
- Performed HT/LT underground cable jointing works.
- Managed project planning, procurement, scheduling, and cost control activities.
- Developed user manuals for electrical equipment.
- Participated in client meetings and resolved project-related issues.
- Handled resource, material, and cost planning to optimize project efficiency.

Personal Details:

- **Full Name** : MOHAMMED GOUSE
- **Date of birth** : 04-04-1995
- **Gender** : Male
- **Marital Status** : Married
- **Nationality** : Indian
- **Languages Known** : English(S/R/W),Telugu(S/R/W),Hindi(S/R/W)
- **Address** : LIGH 390, HB Colony, Moula Ali, Hyderabad-500040

Education

B.Tech – Electrical & Electronics Engineering (EEE) – Bapatla Engineering College (2016)

Intermediate – 85.6%

SSC – 89.99%
