

Muttanna N Kasavannavar

Seasoned Operations Leader with a Strong Background in Hardware Product Development and Project Management, over 18+ years.

muttank06@gmail.com

+91-9980816816

Bangalore, India

AREA OF EXCELLENCE

- ✓ Experienced in different areas viz. Hardware Design and NPD Projects, Vendor/Customer/Production/Projects Management etc.
- ✓ Exposure in End-to-End Design & Project management for Automotive/ Railways/Telecom/Medical/Defense Applications.
- ✓ Circuit Design and Analysis
- ✓ Printed Circuit Board (PCB) Layout and Design
- ✓ Signal Processing and Analysis
- ✓ Embedded Systems Development
- ✓ Knowledge of Industry Standards (IEEE, IPC)
- ✓ Prototyping and Testing Methodologies
- ✓ System-on-Chip (SoC) Integration
- ✓ Power Management and Efficiency Optimization
- ✓ Impressive success in Proficient in Design, Development of High & Low Power Supply, Digital Circuits, Controllers interface techniques Power Drivers.
- ✓ Worked on Power supply design, Backplane, Analog, discrete, sensor, FPGA & CPU module etc. for Interfaces like Ethernet, USB 2.0, 3.0, 3.2, RS232 serial port, display port, CAN bus, SATA for DDR with PCIe signals, CAN, etc.
- ✓ Comprehensive experience in Project planning, change management, Risk management, Monitoring, Resource planning and measuring performance metrics.
- ✓ Proven talent in directing & motivating teams for accomplishment of business targets; problem-solver with strong analytical, communication & negotiation skills.
- ✓ Measure project performance using appropriate tools and techniques.
- ✓ Worked with Various external Labs like TUV Rheiland, ETDC, Sameer-CEM for Product Pre and Post compliance.

EDUCATION

Diploma in Electronics from NTTF Bangalore.
B-Tech In electronics From KSOU Mysore

Personal Details

DOB: MARCH 06, 1985.
Nationality: Indian
Gender: Male
Material Status: Married

Permanent Address:

Flat # 21185, B2T1, 18th Floor,
Prestige Jindal city Apartments,
Manjunath Nagar,
Nagsandra
Bengaluru – 560073,
Karnataka, India

CORE COMPETENCIES

- ✓ Effective Communication
- ✓ Problem-Solving and Critical Thinking
- ✓ Teamwork and Collaboration
- ✓ Creativity and Innovation
- ✓ Adaptability and Flexibility
- ✓ Attention to Detail
- ✓ Time Management and Prioritization
- ✓ Client and Stakeholder Management
- ✓ Continuous Learning and Professional Development
- ✓ Strategist Thinking & Visionary, Decision maker.

TECHNICAL SKILLS

- ✓ **MS TOOLS:** MS Project, Visio, MS Office
- ✓ **PM TOOLS:** Jira, Doors & MS Access
- ✓ **MICROCONTROLLERS:** 8/16/32bit, SOC, ARM Cortex, DSP (TMS 320 Series), Xilinx, Altera, Xilinx FPGA, Marvel, TI, Atmel.
- ✓ **SOC'S:** Altera Cyclone 5CSE, Xilinx Zynq7020
- ✓ **SOFT TOOLS SKILLS:** Allegro, Altium, Mentor graphics Xpedition, LT spice, Tera term, MATLAB & Simulink, MP Lab, Quartus, WinSCP and Putty, Python, Visio, Atmel Studio, HART software for modem, Protel, Proteus, Keil, Turbo C, Python.
- ✓ **COMPLIERS:** MP Lab, Arm Keil, code warrior, Arduino, Matlab.
- ✓ **PROTOCOLS:** I2C, SPI, RS232, RS485, USB2.0, USB3.0, Ethernet, UART, PCIe2.0, PCIe3.0, SATA & Hart 4-20 mAmps, CAN, Arinc 429, Mill 1533b.
- ✓ **LABORATORY TOOLS:** Digital Multimeter, Oscilloscope, Signal Generator, DC Electronic Load, Soldering station, Spectrum Analyzer, Data Logger, Logic Analyzer, GIB, Cypress Programmer/debugger mini prog 4, Clamp meter, FCG test appliance, Modem, Ethernet hub, RS232, Wi Analysis, Gateway, Controller with HART module, API Explorer, Tera Term, Wireless Manager (Linear Technology), Logic Analyzer.

WORK EXPERIENCE

- **Seloriz solutions (P) Ltd | CTO | July '2024 – Till Date | Bangalore, India**

Project: NPD for ONBOARD AND STATIONARY RAILWAY Products (Kavach).

- ✓ Preparation of product design Architecture, POC & guidelines, schedules, and project Management.
- ✓ Developed and implemented strategic plans to achieve company goals.
- ✓ Oversaw daily operations and ensured efficient workflow.
- ✓ Managed and mentored a team of employees to drive performance and productivity.
- ✓ Collaborated with other departments to streamline processes and improve cross-functional communication.
- ✓ Designed and developed Railways standards Compliance DMI, PG, SMOCIP, RELAY RACK, LOCO & STATION SIMULATOR.

- **Metal Power Analytics (P) Ltd | Dy General Manager | Jan '2024 – June 2024 | Mumbai, India**

Project: NPD for OES Products. (Optical emission Spectrometer)

- ✓ Preparation of project design Architecture, POC & guidelines, schedules, and project reports.
- ✓ Developed and implemented strategic plans to achieve company goals.
- ✓ Oversaw daily operations and ensured efficient workflow.
- ✓ Managed and mentored a team of employees to drive performance and productivity.
- ✓ Collaborated with other departments to streamline processes and improve cross-functional communication.

- **Quadrant Future Tek Ltd | Sr. Principal Hardware Lead | Feb '2021 – Dec 2023 | Bangalore, India**

Project: Kavach [Train collision avoiding system] for Indian Railways.

- ✓ Managed a team of hardware/ software/ Mechanical engineers to design and develop cutting-edge hardware products with 2002 design with Altera Cyclone 5CSE, Xilinx Zynq7020 processor interface.
- ✓ Worked with RDSO on protocol implementation and updating the specification loopholes.
- ✓ Collaborated with cross-functional teams to define project requirements and timelines.
- ✓ Oversaw the entire hardware development lifecycle from concept to production.
- ✓ Conducted regular design reviews and provided technical guidance to team members.
- ✓ Ensured compliance with industry standards and regulations.
- ✓ Involved in hardware architect, Design hardware, Component selection, schematic capture, layout, mechanical etc.
- ✓ Board Bring up, Verification, Functional Testing, Inrush Current, Board Power Consumption, Hardware Stability Testing, DC Drop Testing.
- ✓ Actively participated in during External Labs for Pre & Post Compliance of Product.

- **Zettaone Technologies (P) Ltd | Hardware Manager | June '2020 – Jan '2021 | Bangalore, India**

Project: aWTMS WIRELESS HART

- ✓ Implemented hardware maintenance schedules to ensure optimal performance of equipment.
- ✓ Design updates have been implemented to match the requirements data.
- ✓ Managed hardware inventory and procurement processes to meet project requirements.
- ✓ Led hardware troubleshooting efforts to identify and resolve technical issues in a timely manner.
- ✓ Developed and implemented hardware security protocols to protect sensitive data and prevent unauthorized access.
- ✓ Collaborated with cross-functional teams to design and implement hardware solutions that meet business needs.

- **Remidio Innovative solution (P) Ltd | Nov '2018 – May' 2020 | Bangalore, India**

Project: C3FA (Portable Perimetry).

- ✓ Managed a team of hardware/ software/ Mechanical engineers to deliver projects on time and within budget.
- ✓ Developed and implemented hardware design processes to improve efficiency and quality.
- ✓ Collaborated with cross-functional teams to ensure alignment on project goals and priorities.
- ✓ Led the recruitment and onboarding of new hardware engineering talent.
- ✓ Evaluated and recommended new technologies and tools to enhance hardware development processes.
- ✓ Completely Involved in hardware Bring up and debugging.

- **Harman Connected Service (P) Ltd** | Sep '2016 – Nov 2018 | Bangalore, India

Project: Everest2 - 2.5 SATA3 SSD (LSI Client)

- ✓ Designed Display based Hardware Schematic for various sub modules.
- ✓ Implemented automated system for interaction with doctors and nurses to assist patients without external help.
- ✓ Developed and integrated circuits for testing and verifying required output.
- ✓ Conducted board bring up and participated in each test case functionality.
- ✓ Oversaw EMI EMC Test setup at external lab facility.
- ✓ Deployed product to customer location for performance validation.

- **Mobodexter software India (P) Ltd** | Hardware Lead | June '2014 – Aug 2016 | Bangalore, India

Project: USB 2.0 & 3.0 Verification & Validation [SANDISK]

Project: Su-koi MKI 30 Flight Black Box

- ✓ Designed & tested hardware on Sukhoi MKI 30 Black box - including CPU, memory, analog, Discrete, ARINC 495, Mil 1553 communication modules.
- ✓ Utilized Processor MPC860TCZQ66D4 Motorola/Freescale with OSJTAG (NXP programmer).
- ✓ Developed Motherboard backplane, LRU Power supply cards with test software, loading software using SPS
- ✓ Contributed to Product Verification, Validation & Transformer Design, including installation on aircraft and ground level

- ✓ **Neureol Technologies Private Limited** | Hardware Engineer | Aug '2008 – Sep' 2009 | Bangalore, India

Project: Batt Alert System [Client: Airtel]

- ✓ Designed & tested remote Batt Alert System.
- ✓ Selected components, scrubbed BOM, derated components, conducted design reviews, and created Hardware Test Matrix.
- ✓ Implemented 1 wire protocol for voltage monitor circuit of 12V Battery.
- ✓ Designed circuits (Digital Circuit, Controller, Sensor, GSM/GPS Module Interface, 1 wire voltage sensor, Memory Interface like EEPROM, RTC) and conducted Board Bring up using Tc 65i Module for GSM/GPS.
- ✓ Managed PCB fabrication and assembly line to ensure less than 2-3% rejection rate in 2k lot production.

- ✓ **Digant Technologies (P) Limited** | Hardware Engineer | July '2007 – July' 2008 | Bangalore, India

Project: Low-mid-High Frequency Handled RFID Readers

- ✓ Designed and tested hardware modifications for reader ranges from low to high frequency.
- ✓ Utilized tiny controller 48 with USB AVRISP XPII Atmel Programmer and Atmel Studio Programming software.
- ✓ Developed Melexis 13.56 MHz rfid systems and antennas.
- ✓ Updated schematics in OrCAD tool and managed placement, routing, and Gerber release.
- ✓ Coordinated fabrication process with fabricator to address any Gerber issues.
- ✓ Enhanced design accuracy through improvements.
- ✓ Assembled prototype of Bike immobilizer product for Hero Bicycle.
- ✓ Conducted real-time testing under various conditions.

- ✓ **Konark India (P) Limited** | Hardware Engineer | May '2006 – July' 2007 | Bangalore, India

Project: Signaling aspect & HMI unit [Railways]

- ✓ Designed and tested hardware, and modified hardware as per requirements in HMI & Led drivers boards.
- ✓ Updated schematics in OrCAD tool and performed placement, routing, and Gerber release.
- ✓ Utilized Atmel controlled 89s52 with Flash Magic Tool for programming.
- ✓ Coordinated fabrication with fabricator to address any issues in Gerber.
- ✓ Conducted prototype assembly testing.
