PROFILE SUMMARY

- ❖ Dynamic senior engineering leader with **19 years of experience** in **Electro-Mechanical** product design, development, testing & validations, functional safety engineering across Home Appliances, Railway – Metro, Energy sectors and Automotive - EV.
- ❖ Results driven senior engineering leader in railway systems, HVAC, power electronics, and depot/maintenance operations, specializing in fleet maintenance, safety, process excellence, and multi-disciplinary team leadership. Proven track record in managing large technical teams, implementing predictive maintenance strategies, delivering high availability rolling stock systems, and driving KPI based operational improvements, **EMS (Electronics Manufacturing Services)**, 5S, Kaizen, production, Quality (IQC, LQC & OQC) control, and inventory management, Proven track record of successful factory management, including process improvement and cost reduction.
- ❖ Experienced in working with IEC / EN railway standards, Vande Bharat HVAC systems, inverter systems, TCMS integration, and multi-vendor component qualification. Adept at coordinating with cross functional teams—SCM, Quality, Safety, Engineering, and IT—to ensure high reliability operations aligned with contractual performance standards.
- ❖ Proven track record of successfully leading teams through the **full product development lifecycle**, from planning and design to testing, deployment, and maintenance.
- ❖ Experience of **managing a large team of people** along with the technical expertise to provide direction when needed to deliver high performance outcomes.
- ❖ Instrumental in implementing **digital transformation initiatives** to streamline company secretarial processes, enhance efficiency, and improve accessibility to corporate data and documentation.
- ❖ Played a pivotal role in **implementing technology solutions** to streamline company secretarial processes and enhance efficiency in compliance management.
- ❖ Showcased efficacy in **designing robust systems** for company secretarial operations to ensure regulatory compliance, document management, and corporate governance adherence.
- ❖ Leads end-to-end staffing processes, including **talent identification, career development, coaching, and goal setting** with SMART criteria, to cultivate a motivated and high-performing team.
- ❖ **Project & Delivery Management expertise** encompassing planning, implementation, scope management, activity sequencing, delivery time estimation, risk analysis & quality with **team and team members**; skills in identifying opportunities for establishing high standards of collaboration and project deliveries.

CORE COMPETENCIES

Technical Design

Reliability Engineering

Competitive Analysis

Project Portfolio Management

Team Management & Leadership

Product Launches

Consumer Lending

Continuous Improvement

Digital Transformation

Stakeholder Management

Business Insights

System Architecture

SOFT SKILLS

Collaborator

Communicator

Analytical

Innovator

Planner

Thinker

Problem Solving

Conflict Resolution

EDUCATION

- ❖ **Doctorate in Business Administration (AI/ML - Part time)** from Walsh College, USA on-going, 2024 – 2027. **Certified PGP - AI&ML** in 2025
- ❖ **M.Tech. (Power Electronics & Drives)** from Bharath University, Gold Medalist in 2006
- ❖ **B.E. (Electrical & Electronics)** from Andhra University in 2003

CERTIFICATIONS

- ❖ 2009- Six-Sigma Black Belt
- ❖ 2008- Six-Sigma Green Belt

CAREER TIMELINE

TECHNICAL SKILLS

- ❖ AutoCAD, Visio, Power Sim, HV, HiL Lab, MDA – INCA ETAS, Zuken CR5000, Matlab/Simulink, Should costing aPriori
- ❖ **Data Science:** Power BI, Python - AI & ML.
- ❖ **Project:** MS Project, Adv Excel, Minitab, Analytical, Windchill PLM, Team Center (PLM) & Polarion (ALM)

ACADEMIC PROJECTS

- ❖ **Master's Project:** "Direct Torque Control (DTC) of Induction Motor by using Fuzzy logic Controller"
- ❖ **Bachelor's Project:** "Universal Motor Control using IGBT Inverter"
- ❖ **Post Graduate Program in AI & ML (2024-2025)**

WORK EXPERIENCE

Apr'25-Present with SIDWAL Refrigeration Pvt Ltd, An Amber Group as an Assistant General Manager

Key Result Areas:

- ❖ Leading a diverse team of 30+ engineers in key functions such as Railway, Metro Software, Controllers Design, Development, Testing & Commissioning at Train level.
- ❖ Preventive & Predictive Maintenance of the Railway components like Controllers, Sensors, Electrical protection devices, etc.
- ❖ Budgeting & Cost Control, Root Cause & Failure Analysis
- ❖ Technical Documentation & Standards (IEC 61375, IEC 60571, EN 50121, IEC 61287)

Key Result Areas:

- ❖ Introduced the Siemens Teamcenter (PLM) & Polarion (ALM) in the SIDWAL workplace.

Project & Product Managed

- ❖ Siemens – WAG10 CAB-HVAC, CMRL-Ph2-ALSTOM, BMLRCL-CRRC-4RSDM, DMRC-ALSTOM-RS17, SURAT-AHM-TITAGARH & KINET-Vande Bharat HVAC's

Jul'22-Apr'25 with BOSCH Global SW Technologies Ltd, Bengaluru as System Specialist (SYS Testing Manager)

Key Result Areas:

- ❖ Leading a diverse team of 9+ engineers in key functions such as Customer Requirements Analysis, Testing (HV & HiL Labs), TC, SAR, ASPICE, FuSa ISO26262, Project Management, and Application Engineering, overseeing the design and development of various BOSCH products, including Converters and CharCon (OBC).
- ❖ Spearheading the SYS team's deliverables from quote to production, ensuring seamless project execution and high-quality results throughout the entire lifecycle.
- ❖ Championing continuous development through ongoing feedback, performance appraisals, competency assessments, and managing training and development plans to drive continuous improvement.
- ❖ Strategizing the full staffing cycle, including identifying, hiring, mentoring, and coaching staff, while aligning their career aspirations with SMART goals for optimal performance.
- ❖ Overseeing people management, including career development, capacity planning, recruitment, and competency building, fostering a high-performance team environment.
- ❖ Optimizing staffing processes and talent acquisition strategies to support team growth and enhance capability development.
- ❖ Demonstrating expertise in conflict management, promoting collaborative solutions to mitigate disputes, strengthen team cohesion, and improve operational efficiency.
- ❖ Implementing financial planning strategies to optimize resource utilization and effectively achieve business objectives.

Key Result Areas:

- ❖ Collaborating with technical team members to execute project technical aspects.
- ❖ Allocating task and managing program resources, including personnel and equipment, to ensure optimal utilization and efficiency.
- ❖ Executing and reviewing projects with respect to resource deployment, time overruns and quality compliance to ensure satisfactory execution/delivery of the same

- ❖ Developing full scale operational and organizational transformations across the client's organization with a particular focus on their growth strategies, customer functions, and operational effectiveness

Project & Product Managed

- ❖ Mahindra & Mahindra – Charger + Converter Project successfully delivered and commissioned in the BE 6 & XEV 9E EV Models, India.
- ❖ Piaggio - Charger 11kW + Converter 2.4kW Project successfully delivered, Market Area: EU.
- ❖ Rivian, Oshkosh – DC-DC Converter projects completed as a SYS Test Manager, Market Area: USA.
- ❖ TOGG – DC-DC Converter 3kW projects completed as a SYS Test Manager, Market Area: Turkey.
- ❖ Isuzu- EV Bus, DMAX DC-DC Converter projects delivered, Market Area: Japan.
- ❖ e-Axle 6-in-1 Project on-going (Power Train, PDU, Converter, OBC, Motor & Inverter), Market Area: EU & China.

Mar'21-Jun'22 with Caterpillar, Bengaluru as Principal Electrical Engineer

Key Result Areas:

- ❖ Acted as in charge of Product Variation Requests (PVR) and Design-to-Order (DTO) activities for Caterpillar & FG Wilson Diesel gensets ranging from C1.1 to C18 models across Europe, Brazil, India, and China facilities from an electrical perspective.
- ❖ Oversaw the testing and validation of gensets, alternators, and associated electrical components.
- ❖ Led the Electrical side NPI (New Product Introduction) at the PSB facility in Brazil and the Larne facility in Europe.

Mar'18-Mar'21 with A Wabtec Corporation, Faiveley Transport, Hosur as Senior Manager

Project Managed:

- ❖ Delhi Metro – 25 + 20 Train Sets, Bombardier (RS11 –RS16)
- ❖ Lucknow Metro - 25 Train Sets, ALSTOM
- ❖ Kochi Metro – 25 Train Sets, ALSTOM
- ❖ Kolkata Metro – 15 Train Sets, BEML
- ❖ Sri Lanka Railway – 18 Train Sets, ICF
- ❖ Managed 7 members Team and Guided 2 PG Interns.

Key Result Areas:

- ❖ Administered site operations to ensure successful project completion under contracts involving significant capital investments.
- ❖ Led engineering, development, procurement, pre-commissioning, start-up, and performance activities, including the validation of HVAC components, protection devices, cables, control panels, BLDC, induction motors, stepper motors, and VAVE activities related to harnesses and motors.
- ❖ Directed detailed engineering for electrical systems, procurement engineering, and commissioning engineering.
- ❖ Facilitated technical and commercial negotiations with suppliers and managing the pre- and post-award selection of subcontractors.
- ❖ Developed project baselines and actively monitoring and controlling projects in terms of cost, resource allocation, time overruns, and quality compliance to ensure successful project execution.
- ❖ Collaborated with all stakeholders, including engineering consultants, procurement teams, subcontractors, and discipline leaders, providing progress updates, and ensuring timely resolution of issues.
- ❖ Managed onsite activities to ensure project completion within established time and cost parameters, while optimizing resource utilization to maximize output.

Mar'12-Mar'18 with Ingersoll Rand (TRANE), Bengaluru as Technical Lead-Electrical

Project Managed:

- ❖ TRANE Multi-Split AC (1,1.5, 2Ton) AC's launched in Indian Market first time – Lead from Electrical & Controls front.
- ❖ Thermo King – Bus & Truck AC's Development Side Electrical & Controls front support.
- ❖ Achieved RTAC/RTAF 400Ton CHILLER MAB (Manufacturing as Built) in Chennai Plant
- ❖ Chiller Control Panel localization for Indian market, UL508
- ❖ Managed 5 members Team and Guided 4 PG Interns.
- ❖ Expert in managing priorities, efficiently balancing competing demands to streamline workflows, optimize resource allocation, and achieve strategic objectives with accuracy and efficiency.

Key Result Areas:

- ❖ Prestigious Path Breaker Award received in IR
- ❖ Achieved Rock Star Award in TRANE Technologies
- ❖ CEO Appreciation Certificate for the TRANE Air Conditioners launched in Indian Market

Aug'07-Aug'11 with LG Electronics, South Korea as Asst. Manager

Project Managed:

- ❖ RAC (1, 2, 2.5Ton) & CAC HVAC's Design, Development, Testing & validations from Electrical front.
- ❖ RAC: Optimization of Slim HVAC BLDC Motor Error (CH10)
- ❖ CAC: LP-X833SA, Improvement of PTC Heater Performance (PK-Chassis: Floor Stand A/C)
- ❖ CAC: Optimization of Drain Pump Errors (2, 3, 4-Way Cassette Model A/C)

Key Result Areas:

- ❖ Established and managed a new equipment testing lab, including layout design, equipment selection, and commissioning.
- ❖ Highly proficient in risk management techniques, with a proven history of proactively identifying, assessing, and mitigating risks to ensure business continuity and protect organizational assets.
- ❖ Directed lab operations, ensuring resource efficiency, safety compliance, 5S implementation, calibration, UL accreditation, and budget adherence.

Aug'06-Aug'07 with DRDO, NSTL, Visakhapatnam as Senior Research Fellow

Project Managed:

- ❖ As an Integration Engineer involved in the Preliminary Design of Autonomous Underwater Vehicle (AUV), it's an un-manned submersible vehicle and carries Torpedo's

COST SAVINGS

- ❖ **Projects: 12, Ingersoll Rand: 3/2012 - 03/2018, Total Savings: INR 127.21 Cr**
- ❖ **Projects: 15, Wabtec Corporation 3/2018 - 05/2021, Total Savings: INR 191.30 Cr**
- ❖ **Projects: LG Electronics: 8/2007 - 08/2011, Total Savings: INR 135.00 Cr**

Areas of Savings:

- ❖ **HVAC NPI, VAVE Projects, Design Change Actions, and Complexity Reduction** in Lucknow, Kochi, Kolkata and Delhi Metro
- ❖ Development of **Compressors & Inverters Business**
- ❖ **Six Sigma Quality Projects** focused on resourcing localization activities, electrical protection, and design change actions
- ❖ Implementation of **Kaizen, Poka-Yoke, and Electricity/Space Saving initiatives**
- ❖ Focus on meeting **Lennox requirements** and improving operational efficiency through various projects aimed at complexity reduction and cost-saving measures.

INTERNATIONAL EXPOSURE

- ❖ Sep'17-Nov'17: TRANE Global Head Quarters, USA, Lacrosse-Harness Costing with Supplier.
- ❖ Feb'16-Mar'16: TRANE technology center, Pueblo, USA-RTAC, RTAF Chiller dev, NPI.
- ❖ Aug'07-Aug'11: Changwon/South Korea- LG Electronics -HVAC NPI, VAVE & Six-Sigma Projects.
- ❖ Sep'18-Oct'18: Faiveley Transport, Germany, GmbH- Lucknow & Kolkata Metro HVAC Projects NPI, VAVE

TRAININGS

- | | | |
|------------------------------|----------------------------|------------------------------------|
| ❖ 6 Sigma Black Belt (DMAIC) | ❖ Reliability Practitioner | ❖ Teamcenter (PLM), Polarion (ALM) |
| ❖ UL-508 | ❖ MS Project, Doors – Req. | ❖ ISO 26262, FuSa |
| ❖ EMI/EMC | ❖ IEC 61000 | ❖ Power BI |
