

CURRICULUM VITAE

RAGHVENDRA BALAUTHIA
Design Engineer
CYIENT LTD.

E-mail: Balauthia.Raghvendra@gmail.com
Contact No: +91-9993696267

Seeking assignments in Design Operations, Testing & Commissioning Operation, Installation Operation and Maintenance Operation with leading organizations.

PROFILE SUMMARY

- I am a result-oriented professional with more than 14 years of experience in Installation, Testing, Commissioning & Maintenance of Railway Signaling (Main Line) & AC Locomotives.
 - Currently I am working in CYIENT LTD. as a Design Engineer at Hyderabad.
 - I have worked in SIEMENS INDIA LTD. (Lobo Staffing Solution Pvt. Ltd.) as an Installation and Testing & commissioning and Customer Service Engineer at S&T department Jhansi division and Responsible for Remote Monitoring & Diagnosis of AC Locomotive Shed BHEL Jhansi & Diesel Loco Shed Jhansi U.P.
 - Have knowledge basics of railway signaling design like MACLS, ESP, SIP, Interlocking Principle, Control table, point machine, track circuit etc.
 - I have proficiency more than 3 year in wayside interface and site data scheme plan design of CBTC based system INTERFLO 150.
 - Prepare BOQ and CFGI for system requirements.
 - Have knowledge about CAD tool like AutoCAD, MicroStation.
 - A keen planner, strategist & implementer with competencies across:
 - Design Operations
 - Maintenance Operation
 - Testing & Commissioning
 - Quality Assurance
 - Fault Detection & Troubleshooting
 - I received Most Valued Performer for our commendable performance in SITE-DATA PLANS and WAYSIDE DESIGN.
 - An effective communicator with excellent relationship building & interpersonal skills. Strong analytical, problem solving & organizational abilities. Possess a flexible & detail-oriented attitude.
-

CARRIER HIGHLIGHTS

14th NOV 2022 to till now
LTD

As a Design Engineer in CYIENT

I am working on upgrading the legacy signaling to CBTC using Alstom INTERFLO150. Responsible for designing interface circuitry for OCS950 and verify location cases, point machines (M23A), and level crossings.

Project: INTERFLO 150

Client: BHP Rail Control System Australia.

Organization: CYIENT-ALSTOM

Role and Responsibilities:

- Design a signaling view and operational view of Scheme Plan using MicroStation tool for site data team.
- Design a wayside interface circuit diagram of object controller OCS950 using MicroStation tool.
- Designed fuse and terminal layouts, relay contact analysis, and system block diagrams for the OCS system.
- Designed point machine circuit based on OCS/IWP interface.
- Designed configuration files (CFGI) for object allocation in OCS (Onboard Control System) design.
- Prepared Bill of Quantities (BOQ) summarizing material quantities for each location.
- Prepare designs for site team for testing system functionality before commissioning.

- Prepare the BOQ and CFG in line with system requirements.
 - I also received on-job training on ETCS L2.
 - Data base verification of schematic plan as per the SWRS in Splash tool for Hitachi Rail, Etihad Rail.
 - I was serving my service to Hitachi on ETCS L2 as V&V Engineer.

15th FEB 2012 to 31st AUG 2022
LTD

As Customer Service Engineer in SIEMENS

I was responsible for installation, testing, commissioning, warranty support and maintenance, also responsible for Remote Monitoring and diagnosis of different projects in different divisions.

Project 1: SIEMENS make MSDAC

Client: Indian Railway Agra Division and Jhansi Division

Organization: SIEMENS LTD.

Project 2: 25 kVA Static Converter

Client: Indian Railway GWL TL-AC Shed Jhansi Division

Organization: SIEMENS LTD.

Provide technical support to Railway staff. Also prepare their document for execution and billing.

Role and Responsibilities:

- Allocation of equipment and cable supporting rode to reduce cable length and requirement.
- Testing of contactors, relay coils, resistor, and lug on cable end.
- Hardware mounting of MSDAC, Point machines, signals, track circuits.
- Insulation test & High potential test of control and Power wiring for all gears.
- Troubleshooting at the time of Commissioning and Failure.
- Data Analysis and testing of modules, sensors, and evaluation computers at commissioning time.
- Responsible for giving the warranty support on electrical & mechanical items to customers.
- Conducting system testing under varying conditions and analyzing the behavior of the system.
- Installation, Commissioning, and maintenance of AXLE Counter and 25KVA Static Converter in AC coaches.
- Converter testing at software and hardware level.
- Trouble Shooting of Converter if any software and hardware problem.
- Good Interaction with Client for Sales and Service Purpose and prepare reports as per requirement.
- Knowledge of Power Electronics and working on converters.

Service Operations:

- Managing Service Operations while keeping in mind the firm policies, procedures, and safety norms.
- Developing and ensuring customer satisfaction by maintaining excellent Turnaround Time (TAT) for delivery & service quality norms.
- Managing pre-delivery inspection & commissioning of machines and equipment.
- Giving Annual maintenance support to customers for smooth operation of products.
- Scheduling and planning maintenance jobs with key focus on spares management and root cause analysis for all equipment / utilities.
- Undertaking Failure Analysis / Breakdown Analysis of Machinery & Equipment.
- Responsible to collect the modification status of any particular to improve the performance of system from all Field location in India and to guide for its better utilization.

Client Servicing:

- Focusing & giving attention to the recurring complaints, Root Cause Analysis of customer complaints to give a permanent solution and achieve customer satisfaction.

- Responsible to keep record of letters wrote by IR from any zones and to track the issues for its soon closure.
- Responsible to collect the failure record of AMC & Warranty from all field location in India & to submit the record to RDSO.

Testing:

- Conducting System / Regression testing under varying conditions and analyzing the behavior of the system.
- Documenting, tracking, & communicating test plans, test results, analysis, & unresolved problems using various tools.

AWARDS & RECOGNITION

- Most Valuable Performer – Bronze, WAYSIDE Design Team (BHPIO – ALSTOM)
- Most Valuable Performer – Bronze, WAYSIDE Team – BHP
- Most Valuable Performer – Bronze, Site Data Plans Team
- Received multiple appreciation emails for delivering high-quality work and maintaining strong standards.

EDUCATION

2011, Bachelor of Engineer in Electronics & Communication Engineering with 67.72% S.R.C.E.M. (R.G.T.U. Bhopal) Gwalior.

TECHNICAL SKILL

- IT Credentials: MS-Excel, MS-Word, Power point, AutoCAD, MicroStation
- I have pursued course “Table of Control” from RAO Institute Bengaluru.
- I have completed the course “Railway Signalling Overview” from Alstom University.

PERSONAL DETAILS

Date of birth	04 th February 1987
Father's Name	Mr. Kamal Kishore
Mother's Name	Mrs. Urmila
Languages Known	English and Hindi
Permanent Address	B-58 New Fort View Colony, Opposite Vinay Nagar Sector-4, Koteswar Road Gwalior (M.P)-474012

I hereby declare that all the information stated in this resume is true to the best of my knowledge.
