👤 PROFESSIONAL SUMMARY

Aspiring Software Developer with a strong foundation in Python, SQL, and Machine Learning Experienced in building data-driven applications and predictive models. Passionate about developing scalable solutions and solving real-world problems.

TECHNICAL SKILLS

- **Languages:** Python, C, SQL
- **Web:** HTML, CSS
- **Libraries:** Pandas, Numpy, Matplotlib
- **Frameworks:** Django, Flask
- **Tools:** Git, VS code, Jupyter Notebook

📁 PROJECTS

DYNAMIC SNAKE GAME WITH LEVEL PROGRESSION USING PYTHON

- Developed a Snake Game using Python and Pygame with features like dynamic levels, increasing speed, and score tracking.
- Implemented user controls, collision detection, and game logic to create an interactive and engaging gameplay experience.

TRAFFICTELLIGENCE: TRAFFIC VOLUME ESTIMATION USING MACHINE LEARNING

- Developed a machine learning model to estimate traffic volume using historical traffic and environmental data for better analysis and prediction.
- Implemented data preprocessing, feature selection, and predictive algorithms to improve accuracy and support traffic management decisions.

INTERNSHIPS

AI & ML INTERN – SMARTBRIDGE (MAY 2025 – JULY 2025)

- Completed an AI & ML internship at SmartBridge, gaining hands-on experience in data analysis and building basic machine learning models.
- Worked on real-time projects, improving skills in Python, data preprocessing, and problem-solving.
