ACADAMIC PROFILE

Course	Institution	CGPA/Percentage	Year
B.Tech (Production Engineering)	NIT Agartala	7.60	2021-2025
XII (State Board)	Kakatiya Graduate Junior College	87	2019-2021
X (State Board)	Vidya Bharathi Techno School	93	2018-2019

EXPERIENCE

Climate Technique	Sep 2025-Mar 2026
Designation :Site Engineer(Mechanical)	
- Supervised day-to-day site activities related to pipeline installation and fabrication works. - Maintained daily progress reports and updated work status to senior engineers. - Identified and resolved minor site issues to avoid delays in project execution and Checked fabrication works including cutting, welding, and assembly to maintain quality standard - Verified site work as per approved drawings and reported any mismatches and pipe layout according to the drawing. - Involved in site documentation and IMIR copies related to site materials and tools.	

INTERNSHIP\TRAINING

Vizag Steel Plant(RINL) Vizag,India	Dec 2023-Jan 2024
- Completed an intensive internship at Vizag Steel Plant in Thermal Power Plant as Waste Heat Recovery Boilers, gaining hands-on experience in power generation . - Observed and implemented strategies to maximize waste heat recovery boiler efficiency, resulting in 30-50 percent increase in steam generation. - Assisted in improving energy efficiency using waste heat.	
South Central Railway Kazipet ,India	Jun 2024-Jun2024
- Acquired knowledge about the power pack, fuel oil, charged air, lube oil, and water-cooling systems of WDG4 diesel locomotives. - Supervised the water-cooling system with radiator maintenance, which resulted in an enhancement of the engine performance by 3-5% and increased the locomotive cooling efficiency.	

Project

E-Bicycle

Team up with my seniors for this project.

- An Electric bicycle - A motorised bicycle with an integrated electric motor used to assist propulsion.
- Used lithium-ion battery instead of lead ion battery to optimise speed, efficiency and lifespan of cycle.

- Used BLDC motor instead of DC motor to have high starting torque and the torque is flat up to rated speed

Electrical Discharge Machine

- o Studied the working principle of Electrical Discharge Machining for precision material removal.
- o Developed a basic EDM setup/model to understand spark erosion and material removal rate and analyzed key parameters like voltage/current.
- o Obtained the desired shape of coating of a workpiece with accuracy and surface quality.

TECHNICAL SKILLS

- o Course Works: Engineering materials, Manufacturing, , Production Planning and Control. o Soft Skills: Problem solving, Teamwork, Communications, Adaptability, Leadership.
- o Tools: Creo, Ms Excel, Ms Word, Power Point.

ACADAMIC ACHIEVMENTS

- o First Student to Secure Admission in NIT from Kakatiya graduate Junior College.
- o Participated in the Verzeo Campus Ambassador Program

EXTRA CURRICULARS

- o Farming, Cricket, Schematic Drawing, Kho-Kho ,Photography.
- o Languages: English, Hindi, Telugu, Lambada.
