CAREER SUMMARY

Dedicated and detail-oriented fresher seeking an opportunity to contribute my skills in ensuring the quality and reliability of software applications in a dynamic and innovative work environment.

EDUCATION AND CERTIFICATION

Bachelor's degree	- Saveetha school of Engineering (B.E in E.C.E)2020-2024	7.83%
Senior Secondary Education	- Narayana Junior College (M.P.C)2018-2020	7.46%
Secondary 10 th Class	- Target English Medium School. 2017-2018	9.7%

TECHNICAL SKILLS

Python Programming, Machine learning, Keras, Tenser flow, NumPy

PRODUCT BASED INTERNSHIP

AUTOMATIC WASTE SORTING (Using Machine learning algorithms, Python programming, Raspberry pi

- An Automatic waste sorting uses Sensors ,Camera, and Machine Learning algorithms to efficiently classify and identify the objects automatically segregate waste into appropriate categories for Recycling or Disposal.

PROJECT

AUTOMATIC RAIN SENSING WINDSHIELD'S

- Developed an Automatic Rain Sensing Windshield's that detects rainfall using sensor's and automatically activates windshield wipers for improved driving safety.
- Integrated sensor input with a microcontroller to adjust wiper speed based on the intensity of rain.
- Designed the system to enhance driver convenience, reduce manual intervention, and improve visibility during adverse weather conditions.

AWARDS AND CERTIFICATIONS

- International Conference-ICRABCE (St Peter's college),13/2024
- Introduction to Cyber security – CISCO Networking Academy.
- Research Innovation in IOT _ SIMATS,11/2023

PERSONAL INFO

LANGUAGES: TELUGU, ENGLISH, TAMIL

HOBBIES: Reading Editorial column in THE HINDU PAPER.
