STRATEGIC VISION & VALUE PROPOSITION

Enterprise Technology and Digital Transformation Executive with 20+ years of experience leading enterprise modernization, digital engineering, smart manufacturing, and AI-enabled transformation initiatives across global organizations. Expertise in Digital Thread, Industry 4.0, PLM, Cloud, DevOps, Digital Twin, and emerging AI/GenAI technologies driving operational excellence, business scalability, and engineering innovation.

Proven track record of delivering large-scale transformation programs that accelerate speed-to-market, improve operational efficiency, optimize costs, reduce enterprise risk, and strengthen global engineering collaboration. Managed and scaled ₹85 Cr+ international portfolios across India, Europe, and the Americas while building high-performance global teams and influencing long-term technology roadmaps. Recognized for combining strategic vision, execution leadership, and deep technology expertise to deliver measurable business impact in complex global environments.

EXECUTIVE IMPACT

- Built and scaled Digital Engineering business to ₹5 Cr revenue, establishing a new growth vertical
- Delivered 30–40% YoY growth with strong pipeline creation across India & Europe
- Closed ₹1.8 Cr strategic deals within 12 months, improving deal size and win ratios
- Managed ₹85 Cr enterprise portfolio and programs valued at ~85M SEK
- Delivered ₹8–12 Cr annual cost optimization through transformation and vendor strategy
- Improved operational efficiency by 25–35% across enterprise platforms
- Enabled 15–30% cycle time reduction across engineering and manufacturing
- Built and led global teams (50+ earlier; 15+ current) across multi-region operations

BUSINESS & P&L LEADERSHIP

Own end-to-end P&L for Digital Engineering & Manufacturing business, driving growth, margins, and market positioning.

- Delivered 30–40% revenue growth through GTM and pipeline strategy
- Built multi-Cr pipeline across India & Europe markets
- Improved margins by ~8–12% through delivery optimization
- Secured 5 strategic clients within 3 quarters
- Led integrated model covering sales, consulting, delivery, and partnerships

CORE LEADERSHIP AREAS

Enterprise Transformation | P&L Ownership | Digital Engineering | Smart Manufacturing
Global Platforms (PLM / CAD / ERP / MES) | Market Expansion | Organizational Scaling | Governance & Risk

ENTERPRISE TRANSFORMATION LEADERSHIP

Digital Engineering Business Build & Scale

Built and scaled a new Digital Engineering & Manufacturing vertical from inception to ₹5 Cr revenue, establishing market presence across India and Europe.

Impact:

- Achieved 30–40% YoY growth within initial scale phase
 - Increased average deal size by ~2–3x through consulting-led positioning
 - Built multi-Cr qualified pipeline and secured anchor clients
 - Positioned organization as a strategic transformation partner vs execution vendor
-

Enterprise Digital Thread Transformation

Led enterprise-wide integration of PLM, ERP, MES, and cloud platforms to establish a scalable digital thread.

Impact:

- Improved data visibility by 30–40%
 - Reduced BOM/material errors by 25–35%
 - Accelerated engineering-to-manufacturing cycle by 20–30%
 - Delivered ₹5–7 Cr annual cost savings
-

Factory Digital Twin & Smart Manufacturing

Transformed legacy operations into connected, data-driven ecosystems using Digital Twin and Industry 4.0 frameworks.

Impact:

- Reduced downtime by 15–20%
 - Improved productivity by 30–40%
 - Reduced project delays by 25–40%
 - Strengthened operational predictability across plants
-

PROFESSIONAL EXPERIENCE

Director – Digital Engineering & Manufacturing

Desapex Engineering Consultants Pvt Ltd | May 2024 – Present

- Built and scaled Digital Engineering & Manufacturing vertical to ₹5 Cr revenue with AI/GenAI initiatives
 - Own revenue, margins, and market expansion across India & Europe
 - Defined GTM strategy for Digital Twin, AI-led transformation, and Industry 4.0 offerings
 - Built and scaled global team (15+) across engineering and transformation domains
 - Influencing leadership decisions on investments, AI adoption, growth strategy, and positioning
 - Improved delivery governance, enhancing predictability and outcomes by ~20%
-

Global PLM & Engineering Platforms Leader – Enterprise Application Services

SKF Engineering & Lubrication India Pvt. Ltd. | May 2020 – April 2024

- Owned ₹85 Cr PLM portfolio across global engineering platforms and cloud modernization initiatives
- Led enterprise transformation programs valued at ~32M SEK using modern platform architectures
- Delivered ₹5–7 Cr annual cost savings via operating model optimization
- Improved platform stability (~30%) and accelerated resolution (~40%)
- Influenced enterprise architecture and long-term technology roadmap

Global Leader – Engineering Platforms & Digital Transformation

Volvo India Pvt. Ltd. | Aug 2010 – May 2020

- Led PLM, CAD and DevOps platforms across 5+ global business units
- Delivered large-scale transformation programs (~58M SEK), improving engineering efficiency
- Enabled 15–20% cycle time reduction through digitization and process optimization
- Directed global teams across Europe, Americas, and India
- Contributed to enterprise architecture and long-term digital strategy

Early Career – Product & Design Engineering (Automotive)

General Motors Technical Center India | Satyam Venture Engineering Services | 2005 – 2010

- Delivered engineering design, validation, and value engineering across global automotive programs

ENTERPRISE SCALE

- Portfolio Managed: ₹85 Cr
- Program Scale: ~85M SEK
- Plants / Units Impacted: Volvo (5+), SKF (8+), Desapex ecosystem (15+)
- Global Teams: 50+ (earlier), 15+ (current)

EDUCATION & CERTIFICATIONS

- BE – Industrial & Production Engineering, MIT Manipal
- PG Diploma – Plastics Engineering, CIPET
- PRINCE2 | Autodesk (Cloud, Design & Manufacturing)
- ITSM (ITIL) | Cloud (Azure/AWS) | Cybersecurity

EXECUTIVE VALUE PROPOSITION

- Builds and scales digital businesses with clear revenue ownership
 - Drives enterprise transformation with measurable financial outcomes
 - Combines technology depth with commercial and strategic leadership
 - Influences board-level decisions and long-term transformation agendas
 - Creates high-performance global teams and scalable operating models
-
