

Shiva Bhisne

Product Manager

• bhisne.shiva65@gmail.com • +91 8466911456 • <https://www.linkedin.com/in/shivabhisne/> • Hyderabad, IN

SUMMARY

Product Manager with 7 years of experience in building products at the intersection of hardware and software. Proven track record of building physical products in construction automation, waste management, supply chain and autonomous robots. Adept at translating complex user needs into modular architectures, driving cross-functional collaboration, and iterating quickly. Strong background in systems thinking, user research, and cross-functional leadership, blending deep tech with user-first product execution.

KEY SKILLS

Product Thinking, Project Planning, Hardware Product Development, MVP & Rapid Prototyping, User Research & Problem Discovery, Cross-functional Execution, Competitive Analysis, Workflow Design, Stakeholder Management, Vendor Management
Tools: Fusion 360, Figma, Ms Office Suite, Jira & confluence /Zoho Projects

PROFESSIONAL EXPERIENCE

Technical Product Manager Sep '25 - Apr '26
Orbcomm Technologies India Hyderabad,IN

Led product improvements for a large-scale transportation SaaS platform focused on asset tracking and fleet operations.

- Redesigned asset leasing workflows, simplifying complex configurations
- Improved asset utilisation through targeted telematics enhancements and better asset visibility
- Worked closely with customer support, operations and engineering teams to align product improvements to reduce field issues.

Product Manager Sep '24 - Sep '25
Ansعر Robotics Bangalore, IN

Led 0→1 development and deployment of robotics products

- Development a **pallet-handling AMR** and a full-stack Fleet Management Software for autonomous robots
- Led the product deployment in production warehouses, reducing labor dependency by 60%.
- Integrated real-time video analytics, enabling pallet detection, occupancy mapping and material flow tracking.
- Created internal rituals around product releases, issue triaging, and hypothesis validation, aligning product and engineering cadence.

Product Manager Nov '22 - Sep '23
Recykai Hyderabad, IN

Built and soft launched an IoT-enabled smart waste management system combining hardware, software, and user-facing applications.

- Led development of an IoT enabled **Reverse Vending Machine**, combining IoT, AI/ML and user interface to automate plastic waste collection.
- Defined feature design and platform behaviour by conducting user research with municipal ops teams to uncover inefficiencies in waste collection,
- Launched product pilots across 2 cities, processing over 100K+ waste bottles in first 6 months

Co-founder, CTO Jun '18 - Oct '22
Favo Robotics Hyderabad ,IN

Founded and built a deep-tech startup focused on affordable construction using 3D printing technology.

- Founded a deep-tech startup solving for sustainable construction using 3D Printing Machinery with cement made from industrial waste
- Built an affordable **concrete 3D printing machinery** and a proprietary green cement formulation (made with Fly-Ash & GGBS).
- Filed and granted Indian patent for innovations in mobile 3D printing machinery (Patent No: 545760).
- Secured ₹5.3 Cr grant as seed funding from MoHUA and led 12-member R&D team across mechanical, software, and material disciplines.

EDUCATION

Product Management Certification Program Dec '22 - Jul '23
Duke Corporate Education & upGrad Mumbai, IN

- **Course Modules**
 - Market Research | User Research | User Flow Design | Prototyping | MVP + Usability Testing | Product Analytics | Excel & SQL
 - Growth, Engagement & Monetisation | GTM Strategy | Product Planning & Development | Tech 101 for PMS

Bachelor of Technology in Mechanical Engineering Aug '14 - Jun '18
Mahindra University Hyderabad, IN

- Secured 80%
