

SHYAM SUNDAR TALLADA

CENTRE HEAD / SENIOR ENGINEERING MANAGER

+91 7358530328

shyamtallada@gmail.com

<https://www.linkedin.com/in/shyam-sundar-tallada-88213921/>

EDUCATION

- M S | FEA & CFD | I2IT Pune, 2005 – 07
- M Tech | Energy Systems | JNTU Hyderabad, 1994 – 96
- B Tech | Mech Eng | Nagarjuna University, 1990 – 94

SKILLS & EXPERTISE

Hard Skills

- Product Design & Development
- Project & Program Management
- Delivery Excellence
- Risk Management
- Business Growth
- Strategic Planning
- Stakeholder Engagement
- Change Leadership
- Performance Metrics
- Innovation

Soft Skills

- Leadership & Vision
- Strategic Thinking
- Decision-Making
- Communication
- Emotional Intelligence
- Conflict Resolution
- Adaptability
- Negotiation
- Team Building
- Mentorship & Coaching
- Influence & Persuasion

INTERNATIONAL EXPERIENCE

- Japan & France – Project Execution, Business Development, Test Labs Visit
- China – Supplier Evaluation, Benchmarking
- Bulgaria – Transformation, Strategy Discussions

PROFESSIONAL SUMMARY & OBJECTIVE

Strategic R&D leader with 25 years of experience building and leading high-performance teams, driving technology innovation, and delivering end-to-end product development by aligning R&D strategy with business objectives, fostering cross-functional collaboration, and enabling scalable growth, technical excellence, and high customer satisfaction.

To drive innovation and business growth by developing new products, improving existing ones, and leveraging emerging technologies, ensuring long-term competitiveness, market leadership, and profitability through strategic planning and cross-functional team leadership.

WORK EXPERIENCE

Centre Head / Senior Engineering Manager

Visteon Technical and Services Center | Feb 2024 – Jul 2025 | Pune

Technical and Services Center specialized in Automotive Electronics.

- Led 10+ major NPI programs end-to-end, delivering on-time, on-budget, high-quality products for global OEMs (TATA, Mahindra, Suzuki, Renault, Nissan, Stellantis), with active customer engagement at every development stage.
- Directed cross-functional project scopes and business cases, managing multiple programs while resolving manufacturing, assembly, and supplier challenges to ensure seamless delivery.
- Participated in tooling development for metals and plastics, identifying potential suppliers and ensuring manufacturability, quality, and cost efficiency.
- Managed supplier partnerships, aligning expectations, driving process improvements, and ensuring timely delivery of critical components.
- Mentored 50+ engineers, building high-performance teams through disciplined stage-gate processes, KPI tracking, and accountability.
- Enhanced collaboration and delivery efficiency by 20% through strategic alignment with manufacturing, product strategy, operations, and suppliers.
- Aligned engineering roadmaps with corporate strategy, driving scalable growth, VA/VE cost reductions, and technology differentiation.
- Optimized CapEx, OpEx, and workforce planning, achieving \$1M in annual savings through process innovation and data-driven decision-making.
- Developed and mentored emerging technical leaders, fostering a culture of innovation, ownership, and continuous improvement that boosted team performance and retention.

Senior Manager – CAE & Digital Engineering

Renault Nissan Technology & Business Center India | Oct 2008 – Jan 2024 | Chennai

Center focusing on Research & Development for Renault and Nissan.

- Led a team of 45+ engineers managing design and analysis for Full Vehicle, Powertrain & EV – CFD, Crash, NVH, and Strength & Durability across global programs.
- Executed proof-of-concept for EV battery module development and placement for Renault Kwid, successfully validated under diverse operating conditions.
- Collaborated with Renault and Nissan to align and execute CAE and CFD simulation strategies, ensuring synergy across global vehicle platforms.

TOOLS & SOFTWARE

- CAD – Catia & SolidWorks
- CAE – Ansys, Altair, COMSOL
- CFD – Siemens, Altair, Dassault
- PLM – Siemens, Dassault
- Product – DFMEA/PFMEA, DFM/DFA, GD&T, Tolerance Stack-Up, DVP&R, PPAP/APQP, SPC (Cp/Cpk), MSA, Control Plans, RCA (5 Why/Fishbone), Lean/Six Sigma (DMAIC/5S), Plastics tooling
- Project Mgmt. – Jira, MS Project
- Data Analytics & Reporting – Excel (Advanced), Power BI, Google Analytics, SQL (Basic)

KEY ACHIEVEMENTS

- Best People Manager – Recognized for positive team influence through survey feedback
- Front-Line Warrior – Awarded for client-first approach during COVID-19
- Indian Leadership Development Program, IIM Bangalore – Groomed for future managerial roles
- Method Development – Innovated methods saving more than \$1M by reducing physical testing

INTERESTS & HOBBIES

- Sports – Badminton, Chess, Table Tennis
- Numismatics – Old & New Coins of Different Countries
- Reading – Physics & Programming
- Travelling – Long drives

PERSONAL DETAILS

- Date of Birth – 04 Aug
- Marital Status - Married
- Languages – English, Hindi, Telugu & Tamil
- Address – Flat No. 202, Plot No. 6, Sowmya East Apartment, HUDA Complex, Hyderabad – 500035. Telangana, India.

- Spearheaded digital engineering initiatives, including advanced virtual prototyping and simulation, reducing vehicle development lead time by 30% and generating cumulative project savings of \$2M.
- Driven continuous improvement and standardization across project execution frameworks.
- Designed automotive connectors, plastic parts, terminals and performed mechanical, thermal, and electrical simulations to ensure reliable performance.
- Prioritized and harmonized digital simulation efforts between Renault and Nissan, achieving 15% platform commonization and improved cross-brand efficiency.
- Directed 10+ global and regional vehicle development programs, delivering projects on time and within budget, while maintaining high quality and performance standards.

Senior CFD Engineer

Ingersoll Rand India | Apr 2008 – Oct 2008 | Bengaluru

Company focusing on R & D of compressors and refrigeration systems.

- Performed advanced CFD analyses on heavy earth-moving equipment and 12+ refrigeration products, optimizing thermal and fluid performance.
- Delivered design recommendations informed by simulation insights, driving 15% reduction in production costs.
- Validated designs through CFD-supported testing, achieving ~90% correlation with real-world performance, accelerating development cycles.
- Developed and implemented new simulation methods, improving accuracy and correlation for faster, more reliable product validation.

Thermal Specialist

Flomerics India | Apr 2007 – Apr 2008 | Bengaluru

Company providing software solutions in thermal and fluid analysis.

- Led CFD validation for new and development software versions, contributing to timely delivery of two major releases per year.
- Recommended mesh optimization strategies that improved simulation performance and accuracy, reducing computation time.
- Developed faster simulation methods and recommended mesh optimization strategies, improving performance, accuracy, and reducing computation time.
- Enhanced software quality through systematic testing and user interface improvements, boosting usability and reliability.
- Delivered customer support and training, including two major industry conferences, enhancing client adoption and satisfaction.

Associate Professor

Academic University | Apr 1997 – Sep 2005 | Hyderabad

Higher educational institute focusing on engineering and technology.

- Mentored and guided 50+ graduate and postgraduate students, helping them achieve research / project milestones and industry-ready skills.
- Established and developed thermal and fluid laboratories, enabling cutting-edge research projects and collaborations with industry partners.
- Actively contributed to campus recruitment drives, enhancing student placement rates and strengthening industry connections.
