

Srikanth Bandi *Senior Engineer, Signalling*

✉ bandisrikanth11ie046@gmail.com ☎ +91 7416168973

- H.No: 28-129, Gopal wada, Mancherial, Mancherial District, Telangana, 504208

📅 18 Mar 1995 | 🇮🇳 Indian | 👤 Male | 💍 Married

- A professional signalling design engineer having 10 years of experience in UK Main line, Indian Railways with good understanding of signalling principles, Interlocking concepts, standards and practices.
- Experience in working with GRIP 4 and GRIP 5 designs which includes Scheme Plan design, Location Case Designs, Correlation Updates, Track Circuit Modifications, Lockout device (LOD) design, Train Protection Warning System (TPWS), Stage designs (includes Scheme plan, LAP, Location case designs, cable schematics), HABD RED Designs, ABDO position table calculations and position/Sighting forms, Guinea Wayside designs.
- Experience in working with various signalling systems including Electronic Interlocking (MEI633), SSI and Relay interlocking.
- Holding IRSE 1.1.510 v1 Signalling Designer License.
- Working towards 1.1.160 v6 Signalling Design Verifier.
- Working Knowledge in Plan-Software, Microstation V8 & V8i
- Training exposure on Positive Train Control Systems.

Certificates

IRSE Signalling Designer

Certificate No. 00080196

Professional Experience

Wabtec India Industrial Private Limited

Senior Engineer, Signalling

Aug 2020 – present | Hyderabad, India

Chiltern ATP TPWS (161667):

As a designer, I was involved in below deliverables.

- Produced Power load calculations
- Produced GRIP5 LAP
- Produced Stage A and Stage B designs
- Produced New Location case designs

Gainsborough Area Life Extension Works Project:

As a designer, I was involved in below deliverables.

- Produced Base plan from site survey under mentorship.
- Produced Scheme plan under mentorship.

SIN 141 Removal of Independent Treadle and Track circuit controls (165468 6.27.1):

As a designer, I was involved in below deliverables.

- Produced Base plan from site survey.
- Produced Scheme plan under mentorship.
- Produced Location case Designs.

Aster Track circuit Conversion (167295):

As a designer, I was involved in below deliverables.

- Produced Location Alteration designs
- Produced MOD designs
- Prepared NR Acceptance, Closure Lists & Commissioning copies
- Updated the Locations, LAP's & Bonding Plans to the Tester pink copies, MOD & Test logs
- Prepared TGIC Pack for records return
- Prepared QF915 Form
- Prepared Maintenance Copies

EBI Phase 3 – Track Circuit Conversions:

As a designer, I was involved in below deliverables.

- Produced Location case designs.
- Produced Manufacture Location case designs.

Wessex Signal Head Conversion (165468):

As a designer, I was involved in below deliverables.

- Produced Location case designs.

Watfod to Euston 650V Renewals Project:

As a designer, I was involved in below deliverables.

- Produced Location case designs.
- Produced Correlation Specification.
- Verification of Power Load calculations under mentorship.
- Prepared Correlation Packs.

Wessex Assisted Braking & Door Opening Project:

As a designer, I was involved in below deliverables.

- Produced Balise Position table calculations.
- Produced Balise Position sighting forms.

Hot Axle Box Detectors (HABD) Renewal PACE 2-4 Project:

As a designer, I was involved in below deliverables.

- Produced Correlation Report.
- Produced Modification Designs.
- Produced Axle Counter sighting forms.

Fenix Rail Project (Gosforth & DIRFT):

As a designer, I was involved in below deliverables.

- Produced signalling scheme plan under mentorship.
- Produced Modification Designs.

Guinea Wayside Design (West African) Project:

As a designer, I was involved in below deliverables.

- Produced Location Area Plans.
- Produced Bungalow designs.
- Produced Template designs for Bungalows.

Class II FSP Remedial Works (162113):

As a designer, I was involved in below deliverables.

- Produced Form B's
- Produced Location Power renewals designs

LNE 650V Renewals Project:

As a designer, Updated correlation comments & produced the alteration design which includes.

- Renewal of degraded and life expired 650V power distribution cables.
- Power distribution of 50V/110V/120V supplies to existing Signalling location cabinets from newly introduced 650V Functional Supply Points (FSP)

Class II EAST Midlands & Scotland:

As a designer, I was involved in below deliverables.

- Produced Form B's
- Produced Location Power renewals designs

Duwdse 19/20 TI21 Digital RCM (167420):

As a designer, I was involved in below deliverables.

- Updated the locations to the tester pink copies
- Prepared TGIC Pack for records return, QF915 Form & Maintenance Copies

Arup, LNW 650V Renewals Project:

As a designer, I was involved in below deliverables.

- Updated the locations to the tester pink copies
- Prepared TGIC Pack for records return, QF915 Form & Maintenance Copies

Medha Servo Drives PVT. LTD., India

Assistant Engineer, Signalling

June 2014 – August 2020 | Hyderabad, India

Indian Railway Application Logic Design and Interface Design:

- Designed Application Logic for 25 stations in ECoR Railways, Western Railways, South Central Railways and Northwestern Railways.
- Prepared TOC/RCC for 25 Stations in Southwestern Railways, South Central Railways, ECoR Railways and Western Railways.
- Prepared Visual Display Unit layouts for 30 Stations in Southwestern Railways, South Central Railways, Western Railways, Northeastern Railways and ECoR Railways.

- Prepared Signal Interlocking Plans/Scheme Plans for 20 Stations in Western Railways, ECoR Railways, South Central Railways, Southwestern Railways.
- Performed Field Acceptance Test for RDSO Yard.
- Prepared IO Bit calculations for different Indian Railway Zones.
- Prepared IO allocation/WFM Allocation for various Indian Railway Zones.
- Designed Interfacing Circuits for 90 Stations in Western Railways, Southwestern Railways, South Eastern Railways, West Central Railways, ECoR Railways, Southern Railways.
- Designed Interface circuits for Various stage works in Indian Railways.
- Worked in the development of Internal tool which is used to design Interface circuits.
- Worked on Simulation Testing of Interlocking Logic for 30 stations in ECoR Railways, Western Railways, South Central Railways and Northwestern Railways.
- Managed CAD Technicians in Preparation of ASMADE circuits for various Indian Railway Zones.

Education

Special Diploma in Electronics with specialization in Instrumentation

Jun 2011 – Dec 2014

Govt. Polytechnic / State Board of Technical Education and Training

Hyderabad, India

I have completed my Special Diploma in Electronics with specialization in Instrumentation Engineering with 80% from State Board of Technical Education and Training university in East Maaredpally, Secunderabad.

Secondary Education, Srinivasa High School / Board of secondary education by Andhra Pradesh

Mar 2011 Mancherial district, India

I have completed my 10th class with 92% from Srinivasa High School, Srirampur in Mancherial District from State Board of Secondary Education, Andhra Pradesh.

Graduation(B.Tech) in Electronics and Communication Engineering

June 2015-May2018

Samskruti College of Engineering and Technology, JNTU

Hyderabad, India

I have completed my Graduation (B.Tech) in Electronics and Communication Engineering with 65% from Samskruti college of Engineering and Technology, JNTU, Hyderabad

Skills

- Auto CAD
- Microsoft Office tools
- Plans Software
- Micro Station

Languages

- Telugu
- English

Interests

- Reading Books
- Playing Cricket
- Playing Chess

Strength

- Willingness to learn new things
- Quick Learner
- Commitment to the work

Declaration

I, Srikanth Bandi hereby declare that the above details mentioned are true to the best of my knowledge and belief.

Srikanth Bandi

Hyderabad, 07-Feb-2025
