Venkatapuram

INTERNSHIP EXPERIENCE

Embedded Systems Intern (Areca Embedded Systems)

January 2023 - June 2023

Bangalore

- Worked with Embedded C to develop and test basic firmware modules
- Gained hands-on experience with microcontroller programming and debugging
- Participated in real-time system simulations and embedded software development.
- Worked collaboratively with cross-functional teams and learned to read circuit diagrams and understand basic hardware connections

Python Developer (Wright Tech Software Solutions)

June 2024 - July 2024

Vijayawada

- Developed small Python programs for task automation and data handling
- Learned to work with Python libraries and understand project workflows
- Performed basic debugging and improved script performance

EDUCATION

B. Tech in Electronics and Communication Engineering (7.06 CGPA)

Hindustan Institute of Technology and Science, Chennai

Aug 2023 - Expected May 2026

Diploma in Electronics and Embedded System (8.21 CGPA)

Nettur technical training foundation, Bangalore

Jun 2020 - Apr 2023

Secondary School of Education (10 CGPA)

Ravindra Bharathi Public School, Nandigama

Jun 2019 - Apr 2020

PROJECTS

Water Quality Classification using ML

- Developed an SVM-based ML model in MATLAB for real-time water quality classification using pH and TDS.
- Integrated with microcontroller-based system for anomaly detection and monitoring.

Non-Invasive Detection of Underground Water Salinity

- Designed a non-invasive water salinity detection system using STM32 with EC, ultrasonic, and optical sensors.
- Compared electrical, optical, and acoustic techniques to measure salinity without excavation.
- Implemented signal analysis techniques to estimate salinity without physical sampling

SKILLS

- **Programming:** C, C++, Python, Basics of Java, DSA, OOP
- **Tools:** MATLAB, Arduino IDE, Keil
- **Electronics:** Digital Analog, Microcontrollers, Embedded Systems
- **Web & Database:** HTML, CSS, SQL, MS Office
- **Soft Skills:** Problem solving, Communication, Teamwork

CERTIFICATIONS

- **AWS SysOps Associate** - Infosys Springboard, November 2023
- **PCB Assembly Operator (Level 4)** - NSDC/ESSCI, February 2023
- **Diploma in Electronics Embedded Systems (Level 5)** - NOCN/NTTF, August 2023
