

Curriculum vitae

MUKESH KUMAR MUNISWAMY

Flat No.101, Lakshmi Arcade, No.35,
12th cross, L N Puram,
BANGALORE -560021, KARNATAKA, INDIA.
Telephone: 0091-7204537684
Email: mpp167@yahoo.com

I. SKILLS

Highly motivated, with a record of helping projects progress, committed to customer satisfaction, and part of a multi-disciplinary team. Excellent problem-solving and project delivery abilities within strict time and budget constraints to the highest levels of quality.

II. AREAS OF EXPERTISE

-  Project Management
-  General Management
-  Team Leadership
-  Design checking and verification
-  Troubleshooting
-  Health and Safety
-  Staff & Team Development
-  Manpower and Materials Planning
-  Quality Management
-  knowledge of Signalling technology
-  Installation, Testing & commissioning of signalling and train control systems (ATS, ATP & ATC)
-  Communication-Based Train control system (CBTC)
-  Competent in using the AutoCAD tool

III. PROFESSIONAL EXPERIENCE AND SIGNIFICANT ACHIEVEMENTS

a) BANGALORE METRO RAIL CORPORATION LIMITED

Duration: Sep 2022 – Present (Till Date)
Designation: Deputy Chief Engineer (Signalling & Train Control Systems, PSD)
Location: India

Nature of Job:

- **PH-I Extensions line (4 Extn lines + 5 Depot)**
 - a) Review and verify the design documents for extension lines submitted by M/s. Alstom.
 - b) Review and verify the civil & E&M interface drawings.
 - c) Verify the CSD prepared by E&M and give clearance for GFC drawings.
 - d) Discuss and resolve the issue with the internal department in interface issues.
 - e) Clearing the milestone for the works carried out for PH-I extn contract.
 - f) Process the invoice to the finance department for the approved milestone.
 - g) Regular review meetings with M/s.Alstom (contractor) for any hurdles at the site to execute the works and to resolve it in time to carry out the work in a smooth manner.
- **PH-II (Reach – 5)**
 - a) Review and verify the design documents for extension lines submitted by M/s. Siemens.
 - b) Review and verify the civil & E&M interface drawings.
 - c) Verify the CSD prepared by E&M and give clearance for GFC drawings.
 - d) Discuss and resolve the issue with the internal department in interface issues.

➤ **PH-II (Reach – 6) and PH-IIA & B (ORR + Airport Line)**

- a) Planning & Designing for DTG (Fixed Block) to CBTC (Moving Block) conversion for ORR line Depot (Baiyappanahalli)
- b) Planning & Designing of CBTC systems for new lines.
- c) Preparation of conceptual designs for tendering purposes.
- d) Preparation of signalling and train control system tender document for new lines in PH-II.
- e) Prepare the support drawing for the PSD tender.
- f) Review and verify the civil & E&M interface drawings.
- g) Verify the CSD prepared by E&M and give clearance for GFC drawings.
- h) Discuss and resolve the issue with the internal department in interface issues.

b) BANGALORE METRO RAIL CORPORATION LIMITED

Duration: Mar 2018 – Sep 2022

Designation: Executive Engineer (Signalling & Train Control Systems)

Location: India

Nature of Job:

➤ **PH-I Extensions line (4 Extn lines + 5 Depot)**

- a) Review and verify the design documents for extension lines submitted by M/s. Alstom.
- b) Review and verify the civil & E&M interface drawings.
- c) Verify the CSD prepared by E&M and give clearance for GFC drawings.
- d) Discuss and resolve the issue with the internal department in interface issues.

➤ **PH-II (Reach – 6) and PH-IIA & B (ORR + Airport Line)**

- a) Planning & Designing for DTG (Fixed Block) to CBTC (Moving Block) conversion for ORR line Depot (Baiyappanahalli)
- b) Planning & Designing of CBTC systems for new lines.
- c) Preparation of conceptual designs for tendering purposes.
- d) Preparation of signalling and train control system tender document for new lines in PH-II.
- e) Prepare the support drawing for the PSD tender.
- f) Review and verify the civil & E&M interface drawings.
- g) Verify the CSD prepared by E&M and give clearance for GFC drawings.
- h) Discuss and resolve the issue with the internal department in interface issues.

➤ **PH-II (Reach – 5)**

- a) Review and verify the design documents for extension lines submitted by M/s. Siemens.
- b) Review and verify the civil & E&M interface drawings.
- c) Verify the CSD prepared by E&M and give clearance for GFC drawings.
- d) Discuss and resolve the issue with the internal department in interface issues.

c) BANGALORE METRO RAIL CORPORATION LIMITED

Duration: Feb 2011 – Mar 2018

Designation: Assistant Executive Engineer (Signalling)

Location: India

Nature of Job:

- a) To verify the design and drawings submitted by ALSTOM for verification and approval. The documents will be reviewed and comments are highlighted to the contractor.
- b) To ensure the documents submitted by the contract are as per contract clauses.
- c) Conduct a meeting on document review with a contractor to comply with the issues.
- d) To execute and monitor the Installation, Testing & Commissioning of the signalling and train control system for the PH-I.
- e) Reporting to Dy CE (Sig) / CE (S&T) on work progress related at ground level and seeking instruction if any unresolved issues.
- f) Coordinating between consultant (GC/Rites) & Contractor (Alstom) for the smooth running of the project & complete the task within an estimated time.
- g) Interfacing with other departments (Civil, E&M, Infrastructure) on the related issue and solving the issues during the project execution

- h) To conduct the training for newly joined staff in the S&T dept regarding the signalling system and maintenance practice to be adopted.
- i) Conduct the Factory inspection and certifies the FAT.
- j) To ensure the installation activities work comply with contract requirements and standards.
- k) To ensure the signalling gears are installed properly as per SOD clearance.
- l) During the T&C activities the PAT & SAT shall be ensured as per norms in the contract.
- m) To ensure all types of static and dynamic tests shall be carried out for signalling and train control systems.
- n) Coordinating with Dy CE (Signalling) for the preparation of station working orders, standard operating procedures and operation manual.
- o) Prepare interface document with rolling stock for 3-6 car conversion.
- p) Prepare the application documents and drawing for submission to CMRS.
- q) Co-ordinate and represent the signalling and train control system tests to CMRS during an inspection which is conducted before ROD.
- r) Project documentation work carried out for PH-I.

Additional Duties:

- a) I was trained for train operation and relevant competency was issued to operate trains during emergency situations as ERT-01 (BATCH).
- b) Handling the revenue trains for more than 1 year.

Projects Executed:

- a) Phase-I (Line -1 & Line -2) Signalling and Train Control System under 2 S&T-DM contracts.
- b) The Line-1 (Purple Line) length of 17.89km with 17nos of stations (6nos with crossover station and 11nos without crossover station).
- c) The Line-2 (Purple Line) length of 23.84km with 24nos of stations (8nos with crossover station and 16nos without crossover station).
- d) The Signalling and Train control system contract was awarded to M/s Alstom.
- e) Alstom provided Urbalises 200 solution for the DTG system in PH-I.

Training Attended:

- a) Onshore training: Interlocking Systems (ASCV) & Train control systems. The training was conducted in **BANGALORE by Alstom**.
- b) OFFShore training:
 -  U200 for Signalling & Train control systems.
 -  Visit to Testing Platform of various systems and manufacturing units.
 -  The training conducted in **PARIS & Italy by ALSTOM**.
 -  **Site visit in Milano & Bologna.**
 -  Training difference between Distance-to-go (fixed block system) and moving block system CBTC U-400 Alstom system.

d) E2E TRANSPORTATION INFRASTRUCTURE PVT LTD

Duration: August 2010 – Jan 2011
 Designation: Project Manager
 Location: India & Malaysia

1. Projects 1: DMRC Project (Airport Express line)

Nature of Job:

- Execute and monitor the Installation, testing & commissioning of in-platform screen door (PSD).

2. Projects 2: EDTP Project (Ipoh to Padang Besar – KTMB) Malaysian railway project.

Nature of Job:

- Execute and monitor the Installation, testing & commissioning works for stage signalling for KTMB (Malaysia railways).
- The activities such as Relay rack, CT Rack, UPS Rack, KLCR, Control panel, AMF Panel, Power distribution panel installation & cable termination.
- The static test for the equipment with a field is to be carried out in coordination with a customer (KTMB).

- The final commissioning of the stage signalling will be carried out in consultation with the customer.
- The system will be handed over to the customer with certification for the operation. A total of 2 package of SSA & SSB (SSA – 2 Stations & SSB –6 Stations) was handled during this project.

e) MCML SYSTEM PRIVATE LIMITED

Duration: March 2009 - July 2010
 Designation: Project Manager / DGM-Operation
 Location: India

Project details: Line 5 & 6 with 2 depots Signalling and Train control system was awarded to Bombardier Transport with the system of DTG (Fixed block) with AFTC track circuit. The system was designed for 2.5min headway.

NATURE OF JOB

Execute and monitoring of the signalling works for Lines – 5 & 6 of the DMRC project as a subcontractor to BOMBARDIER TRANSPORTATION. As directed by BT engineers day to day activities will be programmed and the same will be arranged by me to execute work at the site. Support and coordination with ground staff for the smooth running of the project all necessary requirements were taken care of. The work progress by day-to-day activities was informed to the project director through phone and email. Preparing the invoice as per contract terms with the approval of PD will process to the BT for the payment department. To attend the meetings conducted by BT for the project's progress. To ensure the safety of staff and quality work at the site.

f) SPECOM ENGINEERING SDN BHD

Duration: Jan 2004 – Jan 2009
 Designation: Assistant Railway signalling Manager
 Location: Malaysia

Responsibility

- Reporting to Project Director
- Manage and coordinate the project works.
- Project planning and scheduling.
- Tender preparation, evaluation and recommendation of award
- Feasibility studies
- Co-ordination and planning with the main contractor
- Project development plan.
- Support and prepare the ISO documentation
- Internal audit.

Projects carried out during the tenure of SPECOM ENGINEERING SDN BHD.

- **Electrified Double Track Project from IPOH to RAWANG (Malaysian Railways)** – Installation, Testing & Commissioning of Indoor & Outdoor Signalling Systems.
- **Power Line Data Communication at University Putra – Malaysia** – Installation, testing, commissioning and integration of power line data communication system.
- **IT Networking for Aljazeera Broadcasting system – KLCC (60TH FLOOR TWIN TOWER) – Malaysia** – Installation, testing, commissioning and integration of IT networking system.
- **Telecommunication Rehabilitation Project - Telekom Malaysia Berhad** – Work involved shifting of telecom utilities for road expansion and recommissioning the system.

- **Civil Infrastructure works for signalling and telecommunication at Batu Gajah Depot (Malaysian Railways) –**
 - Execute the installation of Signalling & telecom manholes (JRC7 & JC9C).
 - Execute the installation of HDPE/DWC/HUME pipes beside the track and track crossing pipes.
 - Execute the installation of under-floor trunking in a building in the depot for CCTV & P.A Systems.
- **Survey study of HT (High Tension Power Line) for Double track project from IPOH – PADANG BESAR (Malaysian Railways) –** Scope was to feasible study and survey of high tension power line rehabilitation for new double track project from IPOH - PADANG BESAR.

g) MCML SYSTEM PRIVATE LIMITED

Duration: Nov2000-Dec2003
 Designation: Signal Engineer, Construction Manager
 Location: India & Malaysia

Projects carried out during the tenure of MCML System.

- **Gudiyatham to Katpadi section (Bangalore – Chennai Section (Indian Railways - Tamil Nadu)** – Installation, Testing & Commissioning of Automatic Block Signalling system.
- **Kanhangad & Nileshwaram stations (Shoranur to Mangalore Section (Indian Railways - Kerala)** - Conversion of mechanical signalling system to CLS with control panel interlocking system.
- **Pallikere (Shoranur to Mangalore Section (Indian Railways - Kerala)** – Level Crossing Gate Installation, testing and commissioning.
- **Railway Line to Port Tanjung Pelepas (KTMB – Malaysian Railways)** – JV project between INDIA & MALAYSIA Government. The scope was to Design and build the signalling and telecommunication system as a technology transfer partner with US&S (Ansaldo) for a line connecting from mainline to Tanjong Pelepas port with 3 stations namely **TANJUNG PELEPAS, GELANG & SKUDAI.**

Responsibility

- Prepare, schedule, coordinating & monitor the assigned Indoor & outdoor signaling project.
- To manage the site requirements and purchase the materials required for the system.
- Arrange the manpower for Indoor & outdoor work.
- Cooperate and communicate with the chief Project manager and other participants to provide assistance and technical support.
- Perform overall quality control at the site (budget, individual performance, schedule plan) and report regularly project progress to Chief Project Manager.
- Manage the site related all requirements economically & report to HO.
- To execute the project within the specific time limit.
- Economically handle the project.

- **DMRC Project (BS-01 contract) – MCML was subcontractor for Alstom**

Responsibility

- Prepare, schedule, coordinating & monitor the assigned Indoor & outdoor signaling project.
- To manage the site requirements and purchase the materials required for a system.
- Arrange the manpower for Indoor & outdoor work.
- Prepare the list of materials consumed at the site and remaining at the site and send it to the office.
- To execute the project within the specified time limit.
- Economically handle the project.

IV. Academic Qualification

S.no	Year of Passing	Education details
1	1996	SSLC
2	1999	Diploma in Electronics Engineering
4	2022	B-TECH (Electronics & communication) - Correspondence
3	2017	MBA – Project & Construction Management

V. LANGUAGES KNOWN

S.no	Languages	Speak	Read	Write
1	English	YES	YES	YES
2	Hindi	YES	YES	YES
3	Kannada	YES	YES	YES
4	Tamil	YES	YES	YES
5	Telugu	YES	YES	NO
6	Malayalam	YES	NO	NO
7	Malay (Malaysia)	YES	NO	NO

VI. COURSES ATTENDED

- a) Kannada Prathama (Grammar Language)
- b) Television Engineer course (TV & Radio servicing).

VII. PROFESSIONAL DEVELOPMENT

- a) Basic computers {Office management and CAD designing}
- b) Safety & Health training program
- c) Signalling and train control system training (DTG system) in BANGALORE (ALSTOM).
- d) Training has been undergone in ST.OUEN (ALSTOM) PARIS, MILANO on Urabalis200 & Urabalis 400 CBTC (UTO) system of Alstom.
- e) Metro Technology Training in INDIAN RAILWAY (IREEN) Nasik.

VIII. PERSONAL PARTICULARS

 **Born:** 1980/07/17

 **Nationality:** Indian

 **Marital Status:** Married.

 **Interests and Pastimes:** Family, Travel, football and Reading books.

 **Mobility:** LMV Class 1 License

I hereby declare that the above stated information is true.
