SUMMARY

I am eager to contribute my skills and passion for innovation through internships, mini projects, and major project work. My hands-on experience in collaborative environments has equipped me with the ability to tackle challenges creatively and effectively. I am excited about the opportunity to join your team, where I can learn from industry leaders and contribute to impactful projects that drive success and growth. Together, we can achieve remarkable outcomes and push the boundaries of excellence.

SKILLS

- MS Office
- pcb design
- embedded system(basic)
- MATLAB simulation
- Problem Solving
- C language(basic)
- Python(basic)
- autocad

LANGUAGES

English

Hindi

Telugu

EXPERIENCE

internship

May 2025 — May 2025

Bharat Heavy Electricals (BHEL) (15days)

Study of manufacturing process of turbo generator

mini project

Aug 2025 — Oct 2025

Autonomous parking with eye motion detection

major project

Nov 2025 — Mar 2026

RRID - enabled electric vehicle charging station:
enhancing infrastructure and communication with open charge point protocol

EDUCATION

narshima reddy engineering college

2022 — 2026

B.Tech/B.E.

Telangana

2020 — 2022

Class XII

Telangana

2019 — 2020

Class X

CERTIFICATIONS AND LICENSES

"participated in work shop on embedded system and programmable logic circuit, organized by data point."

HOBBIES AND INTERESTS

- reading books
- playing cricket
