

RESUME

NAVEEN THOTAKURA.

naveenthotakura.70@gmail.com.

Location: Door No:3-123, old post office street,
Poranki, Vijayawada, Krishna(dt), AP-521130,

Mobile :(+)919573061676

Professional Summary

Result-driven and detail-oriented **New Product Development (NPD) professional** with **5.9 years of total experience**, demonstrated expertise in managing full product development lifecycles — from concept design and feasibility studies to prototyping, validation, and mass production. Strong background in product innovation, cost optimization, and cross-functional project leadership within high-performance manufacturing environments.

Proficient in aligning product strategies with market needs, customer expectations, and business goals. Recognized for delivering high-quality products on time and within budget by utilizing lean methodologies, effective stakeholder collaboration, and robust engineering practices.

Core Competencies.

- New Product Development (NPD)
- Design for Manufacturing (DFM) & Assembly (DFA)
- Product Lifecycle Management (PLM)
- Cross-functional Team Collaboration
- Value Engineering & Cost Reduction
- Root Cause Analysis & DFMEA/PFMEA
- Prototype Development & Validation
- Quality Standards (ISO/TS, Six Sigma)
- CAD Tools: SolidWorks, Creo, AutoCAD
- ERP & PLM Systems: SAP, Windchill
- Agile & Stage-Gate Methodologies

Professional Experience

Amara Raja Energy & Mobility Ltd. – NPD Department

New Product Development Deputy Engineer

Tirupati – AP | Nov 2024 – Present (1.0 Years)

Key Responsibilities:

1. Product Design & Development

- Design and develop new products or improve existing ones.
- Create 3D models, detailed drawings, and specifications using CAD software.

2. Prototyping

- Build and test prototypes to evaluate design feasibility and functionality.
- Iterate based on test results and stakeholder feedback.

3. Technical Feasibility Studies

- Conduct technical assessments and risk analysis.
- Identify materials, technologies, and processes needed.

4. Testing & Validation

- Plan and perform product testing to ensure compliance with quality, safety, and regulatory standards.
- Analyze data and refine designs accordingly.

Cross-Functional Collaboration

5. Work with Cross-Functional Teams

- Collaborate with R&D, manufacturing, quality, and marketing teams.
- Coordinate with suppliers and external partners during development.

6. Support Manufacturing Transfer

- Ensure the design is manufacturable and cost-effective.
- Assist with tooling, process development, and production ramp-up.

Project Management & Documentation

7. Project Planning & Execution

- Manage timelines, resources, and budgets related to NPD projects.
- Track milestones and report project status.

8. Documentation & Compliance

- Maintain accurate records, design history files (DHF), and test reports.
- Ensure compliance with industry regulations (e.g., ISO, FDA, CE, etc.).

Innovation & Continuous Improvement

9. Market & User Research

- Understand user needs and market trends.
- Integrate voice-of-customer (VOC) insights into product design.

10. Continuous Improvement

Achievements:

- Successfully launched over [8] new products in domestic and export markets.
- Reduced product development time by [60]% through streamlined processes and agile implementation.
- Achieved in cost savings through design optimization and value engineering.

Amara Raja Energy & Mobility Ltd. – NPD Department

New Product Development Assistant Engineer

Tirupati – AP | Apr 2021 – Nov 2024 (3.6 Years)

Key Responsibilities:

- Spearheaded the design and development of new battery products from concept to launch, in collaboration with R&D, manufacturing, and quality teams.
- Conducted feasibility studies, cost-benefit analysis, and DFM evaluations to ensure product manufacturability and profitability.
- Led product testing and validation activities include prototype development, performance testing, and compliance assessments.
- Facilitated technical reviews, DFMEA sessions, and risk assessments to ensure robust product performance.
- Managed BoM creation, drawing releases, and technical documentation using SAP and PLM tools.
- Coordinated with vendors for tooling, material selection, and component approvals

Kia Motors India Pvt. Ltd.

Production/Process Engineer

Location | Aug 2019 – Nov 2020 (1.2 Years)

Key Responsibilities:

- Supported production ramp-up and line setup for new vehicle models.
- Monitored and improved manufacturing processes to ensure quality and efficiency.
- Worked closely with cross-functional teams to resolve production issues and optimize throughput.
- Conducted time studies, root cause analyses, and implemented corrective actions for process deviations.

Achievements:

- Played a key role in the successful SOP (Start of Production).
- Reduced cycle time and improved process reliability through lean initiatives.

Education

- **Diploma in Tool and Die making – Mechanical Engineering**
[Nettur Technical Training Foundation (NTTF)], [Gannavaram]
- 2016 to 2019 with 85%
- **Bord of intermediate** from Andhra Pradesh State Education Board in the year 2016 with 50%
- **S.S.C** from Andhra Pradesh State Education Board in the year 2014 with 58%.

Technical Proficiencies

- **CAD Tools:** SolidWorks, Fusion 360, AutoCAD
- **Simulation & Analysis:** ANSYS (Basic), MATLAB.
- **PLM/ERP:** SAP, Windchill, Teamcenter
- **Quality Tools:** DFMEA, PFMEA, PPAP.

Personal Details

Father's name : THOTAKURA BRAHMESWARARAO(LATE)
Mother's name : THOTAKURA NAGA MANI
Date of Birth : 30/03/1998
Gender : Male
Languages : Telugu, English,
Hobbies : cooking, playing badminton, playing cricket, reading.

I hereby declare that the information furnished above is true to the best of my knowledge and belief.

Date:

(Thotakura Naveen)

Place:
